## POWERS PROPOSE PEACE CONFERENCE

### JUDGE GRANTS U. S. PLEA FOR AN INJUNCTION

Wilkerson Grants Daugherty's Plea For Bill Against Strikers

JUDGE'S STATEMENT Says That Defendants Could Not Deny Knowledge and Responsibility for Violence

Chicago, Sept. 23.—Judge James H. Wilkerson today granted Attorney General Daugherty's petition for a nationwide temporary injunction against the striking railroad shopmen.

Judge Wilkerson in a lengthy review of the case, said the defendants could not deny knowledge and responsibility for the widespread violence which has marked the strike. Partial settlement of the strike, he held, has not affected the right of the government to obtain a nationwide injunction.

The court gave attorneys for the defense until Monday morning at 10 o'clock to study the decision and prepare to argue the text of the injunction order which will be signed.

Attorney General Daugherty on Thursday presented the government's proposed draft which is even more drastic than the restraining order now in force.

The order will affect about 270 officers and 400,000 members of the six shopcrafts belonging to the railway employees' department, American Federation of Labor.

Indication that the shop crafts leaders would appeal from Judge Wilkerson's decree was given by Donald R. Richberg, counsel for B. M. Jewell, president, and John Scott, secretary of the railway employees' department of the American Federation of Labor.

### BANDITS MAKE \$15,000 HAUL IN SMALL BANK

Drive Woman Assistant Cashier Into Vault as They Loot Bank

WOMAN DROVE CAR. Savage, Minn., Sept. 23.—Bandits who robbed the First State Bank of Savage at 11:50 in cash and Liberty bonds at 10 o'clock this morning fled in an automobile driven by a woman, according to persons who pursued the bandit car as far as Rosemount, where the trial was lost.

While there was nothing definite to connect this help with that at Waton, in Polk county, early this week, officials remarked that four bandits also were involved in that. No definite trace of the Mentor bandits' whereabouts has been obtained.

Persons who saw the bandits' automobile speed away, declared it was driven by a woman.

Savage, Minn., Sept. 23.—Forcing the assistant cashier—a woman—into the vault, four bandits robbed the First State Bank of Savage at 11:50 A. M. today, escaping with approximately \$15,000 in cash and \$15,000 in Liberty bonds.

The four bandits drove up to the bank in a touring car, three of them entering the institution and the fourth remaining at the wheel of the car, with the motor running.

Twice before this week the men have been at the bank inquiring as to the financial rating of a certain farmer in the neighborhood, and Miss Marie McDonald, the assistant cashier, who was alone at the time looked up with a smile of recognition as the men entered.

Drawing pistols, the bandits commanded her to "get into the vault," and two of them followed her in the third remaining on guard at the counter.

Hardly more than five minutes was occupied by the robbery the bandits leaving quietly without molesting Miss McDonald, and making no attempt to prevent her from making an outcry the moment they had quit the place.

Immediately they had left, Miss McDonald sounded the alarm, and the authorities quickly notified nearby towns, including the Twin Cities, to be on the alert for the men, of whom a detailed description was furnished.

### BRIDE TAKEN BY KIDNAPERS AFTER WEDDING

Chicago, Sept. 23.—Authorities of Chicago, Northern Illinois and Wisconsin cities were watching today for Mrs. Helen Schultz Schanck, a bride of yesterday, and two men alleged to have kidnapped her two hours after marriage.

The bride was Helen Schultz who went through a ceremony with John Koznick, of Neenah Wisconsin, three weeks ago but Koznick had obtained the marriage license in Chicago and the marriage was declared null.

Miss Schultz returned to her home in Chicago and began accepting attentions of Donald Schanck, a Chicagoan. They were married yesterday and during the absence of Schanck, the bride was taken from the home of a friend where he had taken his bride, two men in an automobile forcibly took the girl from the house and whirled away with her, neighbors later told the bridegroom.

### PROBING OF COAL PRICES FIRST DUTY

President Harding Gives Instructions to New Fuel Administrator

URGES COOPERATION

Fair Charges for Commodity Must be Maintained Writes Chief Executive

Washington, Sept. 23.—Federal Fuel Distributor Conrad E. Spens began preparations today to carry out measures contemplated in the new coal distribution and anti-price-fixing act to meet the National fuel emergency.

In a letter to Mr. Spens following his appointment yesterday, President Harding suggested that among the first activities of the fuel agency the question of maintaining fair prices for coal within the various states be taken up with the state governors. Supplementary to this, the President directed the setting up of "such agencies as will vigorously follow up individuals using facilities of interstate commerce who are exacting extortion, as defined in the act, in order that we may have relief from such practices at the earliest possible moment."

In urging the consuming public to cooperate against the accumulation of stocks in excess of current needs, Mr. Spens expressed the opinion that such a course not only would solve the distribution problem but also would quickly restore prices to a fair level in the section where he believed these were now being exceeded.

Appointment of D. Conn. of Minneapolis as assistant federal fuel distributor, was announced today by Distributor Spens.

### THEATER FOYER COLLAPSES KILLING ONE

Pittsburgh, Sept. 23.—City officials, conducting an investigation of the collapse of the foyer of the Strand theater yesterday afternoon, today began to take statements of some of the fifty-eight children, most of whom were injured when the concrete floor dropped to the basement.

Madeline Kunkle, aged 8, one of those invited to the free showing of the picture "The Trap," was killed, and 18 others are in hospitals. Four are in a critical condition. Eleven sustained broken arms or legs.

A city building inspector reviewed the ruins and reported the flooring had been improperly constructed. Sol Seiznick, the proprietor, who was seriously injured in the crash, said the building was inspected two months ago and pronounced safe.

### SHORE MEN TO HOLD EXHIBIT

Chicago, Sept. 23.—The Shoe Travelers' association has announced its sixth semi-annual exposition, known officially as the Chicago National Shoe Exposition, to take place here October 2-6. The Chicago Shoe Trades association will be represented among the exhibitors.

The Chicago Association of Commerce reported that through its trade department reduced rates have been obtained for all retailers who attend during the exposition.

### JUDGE HOLDS GORDON CASE

Judge Miller today took under advisement the case growing out of dispute over the ownership of the Gordon Clothing Company and Leader Store, Minot, and the Gordon Clothing Inc., Valley City, and indicated decision would be made the middle of next week.

### Victorious Turkish Cavalry in Rapid Advance

This is the first picture in America to give an accurate idea of Mustafa Kemal Pasha's cavalry, the wing of his army that has been most used in his rapid advance to within a few miles of Constantinople. Notice that some of the horsemen are equipped as regular troopers while others have the nondescript accoutrements of irregulars, brigands and marauders who attached themselves to the Turkish chief as he spread Asia Minor.

### VESSEL BRINGS ANTHRACITE

Duluth, Minn., Sept. 23.—The vessel Quincy Adams was chartered at Buffalo today to bring 10,000 tons of hard coal to the Duluth-Superior harbor immediately. It was learned here. This will make the first shipment of anthracite coal received here since April.

### RAIL BODY TO INTERVENE IN RATE MATTERS

Will Seek Benefits of Any Changes for Fargo for All Parts of State

ASK FOR DEDUCTIONS Removal of Discrimination Between Sister States One Object of Measure

The state railroad commission will intervene in the Fargo and Jamestown-Valley City rate cases pending before the Interstate Commerce Commission with a view of assisting in the conduct of those cases and securing for the entire state any modification in rates from the Twin Cities, Duluth, Chicago, Kansas City or other points to Fargo. It was announced by V. E. Smart, traffic manager of the commission, today.

The basis of the Fargo case, Mr. Smart said, was an effort to secure a reasonable scale of class rates from Duluth and the Twin Cities to Fargo as compared to rates to Moorhead and Crookston, and to secure reasonable rates from Chicago, Kansas City to Fargo, the Chicago rates now being based on full combination over St. Paul. The Chicago rate issues are particularly important to Fargo and other North Dakota jobbing points, it is stated as practically all rates in New England territory, Central Freight Association territory and Eastern Freight Association territory are based upon or related to combinations over Chicago.

The Jamestown case alleges discrimination between rates from the Twin Cities to some points in North Dakota as compared to rates to Jamestown and Valley City. The North Dakota commission will object vigorously to the intrastate discrimination in rates in favor of Minnesota, joining with the Fargo shippers in presenting this matter, Mr. Smart said.

### POLICE CANNOT FIND CLUE IN HALL-MILLS CASE

New Brunswick, Sept. 23.—Baffled in their efforts to trace the slayer or slayers of the Rev. Edward Wheeler Hall, rector of the Protestant Episcopal church of St. John the Evangelist and his chair leader Mrs. Eleanor Rehart Mills, wife of church sexton, authorities today planned their hopes on getting some light through volunteer statements by members of the church. A public appeal, with a promise of protection from publicity, was made by Prosecutor Stricker for facts bearing on the mystery.

Some detectives believe the rector was shot in the front seat of an automobile and that Mrs. Mills broke her ankle in jumping from a motor car.

Witnesses have told the authorities of seeing two rapidly moving automobiles on the road near the spot where the bodies were found.

### WEATHER OUTLOOK

Washington, Sept. 23.—Weather outlook for week beginning Monday: Region Great Lakes and upper Mississippi Valley: Generally fair, normal temperature.

### MANY PROBLEMS ARE INVOLVED IN CITY-OWNED WATER PLANT, MANDAN'S EXPERIENCE REVEALS

Interest in a city-owned water plant in Bismarck has naturally caused many citizens to ask the real story of the water plant owned by the city of Mandan, whether a good quality of water has been furnished at a reasonable price, whether the service is good and if the plant removes all the problems met by necessary expansion of a water plant to meet increased needs of a city. Mandan owns her water plant, and has had no experience with a privately owned plant.

The story of the Mandan plant shows that the same problems which must be met in a privately-owned plant must be met in a city-owned plant, that water bills come just as regularly with one as with the other, and that kicks are registered against both. On the whole the experience of Mandan appears to have been satisfactory to most of her citizens and to her officials.

The Mandan plant was built in 1911. Previously a system of mains had been installed and water was purchased from the Northern Pacific. The Northern Pacific now purchases water from the city-owned plant, is its largest customer and gets a special rate about one-third of the average first charge to ordinary consumers.

The city was bonded for \$80,000 to build the plant, the bonds being sold at a slight premium and bearing 5-1/2 per cent interest. They were 20-year bonds and are due in May, 1931. A sinking fund is maintained, \$4,000 being levied in taxes each year for this and \$4,400 is levied to meet the interest, making a total of \$8,400 a year in taxes for water plant bonds.

The plant is not conducted as a separate corporation, but as an arm of the city government, the receipts and disbursements being included in the statements of all other city business. If there is a deficiency in the system it is more difficult to ascertain the exact financial history of the plant.

On August 1, according to Auditor Seitz, there is a balance in the treasury to the credit of the water fund of \$3,725.56. On October 1, 1921, there was an overdraft of \$5,045.45, which comparison reveals that a handsome profit on actual operating expenses has been made on the plant in the last year. Included in this amount, however, the auditor says, is \$765 or \$800 out of \$1,000 taxes levied for the water plant last year when there was a deficit in the fund. About \$4,000 in taxes has been levied for the maintenance or extensions of the plant since its use, the auditor said. The city of Mandan has received free water for its 60 hydrants and for other city uses, no charge being made for this. The city treasurer collects the bills and the city hall is the office of the water company.

Expansion Difficulty. One of the difficulties met in any utility is that of expansion. This is particularly true in a water plant where the cost of extending mains is very considerable. The Mandan plant has been extended since it was built, although within the last year or two some petitions for extension have been denied. No water mains were laid this last year because of financial conditions, the auditor said, although there was desire on the part of the city to do so. Included in the extensions which have been made are laying of mains into "downtown" and into the "Syndicate" addition southwest of the Northern Pacific, near the fair grounds.

The cost of the water to the small consumer 30 cents per hundred cubic feet as compared to the rate of 21-1/2 cents per cubic foot of the Bismarck plant prior to the 35 per cent increase recently ordered in Bismarck. The Mandan water rates follow: Minimum Rate Per Month \$1.00. First 667 cubic feet or fraction thereof 30 cents per 100 cubic feet.

Second 667 cubic feet or fraction thereof, 26-1/2 cents per 100 cubic feet. Third 1,333 cubic feet or fraction thereof 22-1/2 cents per 100 cubic feet. Fourth 1,333 cubic feet or fraction thereof 18-1/2 cents per 100 cubic feet. Fifth 1,333 feet or fraction thereof 15 cents per 100 cubic feet. Sixth 667 cubic feet or fraction thereof 11-1/4 cents per 100 cubic feet. Water rates from May 15th to October 15th, used on lawns, trees and gardens 12 cents per 100 cubic feet over and above average consumption of water used from October 15th to May 15th, provided that the first 333 cubic feet shall be charged at the rate of 30 cents per 100 feet with a minimum charge of \$1.00.

The rate in Bismarck prior to the 35 per cent increase were: First 400 cubic feet, 37-1/2 cents; balance, 30 cents per hundred cubic feet.

Consumption Expansion. The consumption of water in Mandan is greatly below that in Bismarck. The Bismarck Water company states that the consumption for the last year was 240,000,000 gallons while the consumption in Mandan during 1921 was 89,191,115. There is shown a marked increase in the consumption in Mandan during the summer time. The consumption for 1921 in Mandan is as follows: January, 4,000,000; February, 5,445,600; March, 5,502,000; April, 5,702,000; May, 4,327,820; June, 6,618,700; July, 9,496,905; August, 9,586,000; September, 7,452,500; October, 7,245,000; November, 6,082,500; December, 6,822,500. The Bismarck Water company says its increased consumption during the three summer months is about 40 per cent.

For the year ending August 31, 1921, water rentals in Mandan were \$15,193.02; taxes for the plant, \$1,000; expenses, \$14,594.10.

### GUARD CHIEF IS ASSAILED IN RIOT PROBE

Special Grand Jury, Returning 212 Indictments, Complains Of Illinois Adjutant General

TELLS OF CONDITIONS Opening of Strip Mine Under Threatening Conditions Held Mistake

(By the Associated Press) Marion, Ill., Sept. 23.—In a comprehensive report today, the special grand jury which investigated the Herrin mine killing arraigned General Black for failure to send troops, Sheriff Melvin Thaxton and local police for alleged failure to protect life and property, and returned a total of 212 indictments. Alleged lack of authority to send troops without such a request having been made, it was pointed out, was the explanation given by Adjutant General Black.

The jury returned six more indictments for murder, bringing the total to 44, 58 for conspiracy to commit murder, 64 for assault with intent to commit murder, and previously had returned fifty-eight for conspiracy and rioting.

Discussing the Southern Illinois Coal company's action in reopening the Strip mine while the strike was in effect, the report states that W. J. Luster, owner, "either was woefully ignorant of the danger," or "blindly permitted to risk strike and conflict if profit could be made."

The report was emphatically stated that there was no law which forbade the adjutant general to call out troops unless request were made by the sheriff. This, it was pointed out, was the explanation given by Adjutant General Black for his failure to send troops to Herrin.

Sheriff Melvin Thaxton is a member of the miners' union and also is a candidate for county treasurer and he failed to take adequate measures to preserve the peace either because of his sympathy for the union or through fear that it would hurt his candidacy, the report declared.

Sheriff Criticized. The attack on the Strip mine, which resulted in the 22 deaths, had been planned several days, the report asserted, and Sheriff Thaxton had ample time to learn of the proposed movements on the non-union men.

Ransacking of hardware stores for arms and ammunition just before the attack was the result of a telegram from John L. Lewis, president of the United Mine Workers, to State Sen. Wm. Sneed, declaring the non-union men to be strikebreakers, the report said.

Senator Sneed is a sub-district president of the miners' union, and the report stated the telegram was posted at various places and that thunders rilled the stores with the assurance that the United Mine Workers would pay for the articles they took.

### SEES TARIFF AS BIG ISSUE

Former Governor Cox of Ohio Talks 1924 Campaign

Cleveland, Sept. 23.—Asking what the issue will be in 1922, former Governor James M. Cox of Ohio, and Democratic nominee for president in 1920, declared here today in his first address since his return from an extensive tour of Europe, made before the City Club, that "the people this year will be asked to elect a congress that will undo the present tariff monstrosity."

"But we will not lose sight of another great question—the international one," Mr. Cox added. "It will be more pertinent for discussion, however, in the great National forum of 1924."

### BABE CALLS "MOTHER" JUST AFTER BIRTH

Mason City, Ia., Sept. 23.—"An accident but a most unusual one," is the opinion expressed today by physicians on the unprecedented performance of the infant child of Mr. and Mrs. Peter Zantes, who called "Mother" three times five minutes after his birth in a hospital here yesterday. The enunciation was so clear that attending physicians and nurses were amazed. Since these three initials call, however, his vocal efforts have been confined to the customary vocabulary of an infant. The difficulty in uttering the "th" sound which was so marked in the babe's pronunciation of the word makes the feat the more remarkable, doctors said.

### MAY BE ENVOY TO TURKS

GEN. SIR CHARLES TOWNSHEND.

By NEA Service. Constantinople, Sept. 23.—General Sir Charles Townshend who directed the British campaign against the Turks in Mesopotamia during the World War and because famous through his heroism at the battle of Kut-el-Amarna, may be chosen as an allied envoy to settle the present Turkish crisis.

Though Townshend has spent most of his career fighting against the Turks and other Moslems, he is admitted and respected by them and his opinions would carry great weight with Mustafa Kemal by whom he is well known.

Shortly before the Turkish offensive Townshend visited Angora and held long unofficial conversations with Kemal and members of his cabinet.

Townshend, it is believed, will advise the allies to give Turkey Constantinople, Adrianople and Thrace. He already has warned Great Britain that Turkish blood shed in keeping the Turks from Constantinople will mean a holy war with uprisings in all of Britain's Mohammedan possessions.

### STRAUS SEES SPLIT AMONG THE ALLIES

Former Minister to Turkey Discusses Causes of Situation

By John O'Donnell. New York, Sept. 23.—Present conditions in Asia Minor are so serious that there is "great danger of a recurrence of the World War," declared Oscar S. Straus, twice minister and former ambassador to Turkey, in an exclusive interview today.

The former ambassador, who is probably as familiar with the Turkish question as any other man in America, emphasized these points in his interview.

ONE: Turkey, Russia and Germany, with one or more of the Balkan states, may pool their forces against the allied powers.

TWO: The United States, for its enlightened self-interest, may be compelled to take a part in preventing a world-confagitation and in restoring peace.

THREE: A general confagitation can be avoided only if (a) Great Britain, France and Italy reach an immediate agreement and (b) if the Treaty of Versailles be materially revised.

FOUR: The present menacing condition would not have developed had "the United States, under any reservations we chose to make, joined the League of Nations."

FIVE: Venizelos, Greek premier exiled at return of Constantinople, "should be immediately recalled and placed in power."

"I do not wish to be a prophet of evil," said the former ambassador, "but the danger of an outbreak of the World War is great. I say great because the present state of affairs may bring Germany, Russia, Turkey and one or more of the Balkan states together in close alliance."

"The militarist and monarchial parties in Germany have nothing to lose and everything to gain, in their estimation, by joining with Russia and Turkey. Furthermore the Russian Soviet system would be immeasurably advanced by such an alliance."

"Today, Russia has in readiness the greatest army in the world. That army, organized and led by German officers, can be enlarged to any extent."

"With the world exhausted as it is, bleeding at every wound, another war carries with it the possibilities of endless woes in the disorganization it may bring within the allied nations themselves."

### TURKS CONFER ON WAR WITH GREAT BRITAIN

Next Thirty-six Hours Will Determine Policy of National Forces

LLYOD GEORGE'S VIEWS Says England's Position on Dardanelles Is to Prevent General Upheaval

RUSSIA PREPARING Riga, Sept. 23.—It is reported on apparently good authority that the Soviet Russian council for Labor and defense has been ordered to prepare a maximum quantity of rolling stock available for the transportation of troops and munitions. A portion of the freight cars intended for the Petrograd, Reval and Riga trade has already been diverted, it is declared.

PROSPECTS BRIGHTER Paris, Sept. 23.—The prospects of peace in the Near East were distinctly brighter today as the French and British cabinets met to consider the tentative conditions of settlement drawn up by the Allied representatives here. These conditions are expected to form the basis of negotiations at the peace conference soon to be summoned.

They provide for the reoccupation of Constantinople and Eastern Thrace, including Adrianople, on the line of the Rianaspire, with the neutral zone over Maritima, the neutral zone along the Thracian, Bulgarian and Grecian frontiers; internationalization of this Dardanelles maintenance of a permanent Allied military force at Gallipoli and strict guarantees for the protection of the minorities in Turkey. Should the plan be approved by the two cabinets today and be accepted by the Turkish Nationalist government as a basis of negotiation, it is thought the peace conference could be convoked for October 10 or 12.

(By the Associated Press) Constantinople, Sept. 23.—Within 36 hours the world will probably know whether the Turkish Nationalists have chosen war or peace. The Angora cabinet, meeting at Smyrna, is expected hourly to declare whether the Kemalists will await the peace conference proposed by the powers or take matters in their own hands by invading Thrace.

France is expected to exert renewed pressure to keep the Turks from any hostile action which would jeopardize their present extremely favorable position at the forthcoming conference, but many competent observers are frankly skeptical that the Nationalist cabinet will accept at their value promises that the conference will result in their realization of all their claims.

The Turks are fully aware of the weakness of the British and forces now precariously holding points along the Asia Minor shore, and are convinced of their ability to defeat them.

French official circles hold that the only thing which can stave off the Nationalist attack is a definite pledge by Great Britain to support France in guaranteeing that Thrace will be evacuated promptly by the Greeks and restored to Turkey.

Opposes Hasty Action. It is reported that Mustafa Kemal Pasha, the Nationalist leader, is opposed to hasty action, but it remains to be seen whether his strong personality and convictions can triumph over the opposition of his colleagues.

Meanwhile unfeigned anxiety exists among the British here over the continuing strong concentration of Turkish troops at Ismid, where by reason of the withdrawal of the Italians, the position of the British forces has been weakened.

The Nationalists have brought up field guns from Es-lane, which they recently seized, to within ten miles from the Southern shore of the Dardanelles.

The tension in Constantinople continues. The capita is full of disturbing rumors, and many British war correspondents are arriving.

CONSTANTINOPLE UNEASY London, Sept. 23.—Notwithstanding assurances from Paris that the prospects for peace in the Near East are brightening, ugly reports continue to come from Constantinople, and several more units of the Atlantic fleet, including the battleship Revenge, have been ordered to prepare for service in the Dardanelles.

The favorable side of the picture is presented by the Paris correspondent of the TIMES, who reports the French naval commander, Admiral Dumesnil, sent his government a most reassuring dispatch concerning his interview with Mustafa Kemal Pasha. He said he found the Turks "entirely tractable and ready to enter negotiations without delay."

The same correspondent says the report submitted increases enormously the potentiality of the later. The writer contends the position is radically different from that which existed when the Allies attacked.

(Continued on Page Three)

# WOULD MAKE DUCK SHOOTING SEASON LATER

Several Bismarck Sportsmen Discuss Question of Going Before Legislature

Several Bismarck sportsmen already have begun to discuss the matter of going before the next legislature to ask that the open season for duck shooting be opened on October 1 instead of September 16. Because of scarcity of difficulty hunters have had shooting prairie chickens hundreds of hunters have turned to duck shooting and they have been slaughtered by the thousands, according to local sportsmen. This has resulted in young ducks being killed in large numbers. Most hunters have been able to get their limit in ducks at this time of the year. The local sportsmen also maintain that the ducks are not generally killed for eating this early in the season but are killed simply for the purpose of bagging game.

Many experienced hunters reported unusual difficulty in getting prairie chickens the first week out. The explanation by one hunter was that the weather sent the chickens into hiding, but in the last few days with warmer weather they are said to have been more numerous.

## Developing New Type of Air Map

Washington, Sept. 21.—A new type of map to guide aviators who declare the present system of maps for air work is not complete, is being prepared by the National Advisory Committee for Aeronautics. The new type is characterized for its extreme simplicity, only features of the terrain being included, together with better indication of landing fields with such information as a "not especially needs when forced to land. The first of these maps, that of the air route between Langley Field, Virginia, to Washington, has just been made public. It is based upon a simple hydrographic map of the territory between the two points. Only those landmarks which are visible to fliers at some height and easily recognized, are shown. They include, islands, towns, lighthouses, rivers and easily distinguished inlets. A compass course is laid out on the chart in a direct line between the two points, which, in this instance is feasible, although it is recognized that such a course is not always practicable. Along with that course is laid out a supplementary course which deviates from the compass course only a few miles and which follows the better terrain.

Landing fields sufficient to provide safe descent are shown. No attempt is made to picture features of the fields but towards the margins the fields are delineated in larger scale. The nature of the ground is shown, together with the structures nearby, points of danger, and general information. Such as a "not especially needs when forced to land, is written out.

The main purpose of the new style chart is to provide a number of secondary landing fields at distances of about 25 miles, an endless line of ground markers, to be supplemented at night by lighthouses and the more ambitious program of wireless direction and meteorological information.

Another feature is the scale of distances along each side of the chart, which will give the fliers his mileage and distance to go. Instruments do not always show this data.

## NEWS BRIEFS

St. Louis.—A temporary injunction issued last year restraining interference with street sales of Henry Ford's DEARBORN INDEPENDENT, was made permanent.

Chicago.—Alderman John Lyle, was made defendant in two suits of \$100,000 for slander and libel as a result of his charges that coal dealers and operators were in a price fixing conspiracy.

Ploughkeekie, N. Y.—Daniel J. Gleason, referee in the Stillman divorce case, announced he would not file his decision until late next week.

Mineola, N. Y.—Nineteen high school seniors went on strike when their class leader, Norman Smith, was sent home following disagreement with teachers.

Honolulu.—The Hawaiian Civic Club denounced exhibitions given under the name of the Ancient Hawaiian Kula, as being indecent parades.

St. Louis.—Physician said Paul L. Boehl, 25, who suffered a broken neck four weeks ago, had a chance for recovery.

## DIZZY SPELLS?

If You Have Heat Flashes or Smothering Spells, You Should Not Overlook One Word of This.

Winona, Minn.—"At middle life I was terribly distressed with heat flashes and smothering spells. I would become quite dizzy at times, too. I bought a bottle of Dr. Pierce's Favorite Prescription and felt the benefit right away, so I kept on taking it until I was safely thru that critical period. It was really remarkable how quickly Dr. Pierce's Favorite Prescription relieved me of all my distress and I came through middle life in excellent health. I praise this good medicine at every opportunity."—Mrs. Rose Buse, 418 High Forest St.

Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice or send 10c for trial pkg. of tablets.—Adv.

## FIVE LEADING FIGURES IN TURKISH CRISIS

A. K. JENNINGS of Cleveland, N. Y., secretary for boys' work at the Y. M. C. A. in Smyrna, has reached Athens in safety. He declares the Y. M. C. A. building was not destroyed by the blaze that ravaged Smyrna.

SULTAN MEHMET VI will be rendered more thoroughly powerless than he is at present if Mustafa Kemal Pasha occupies Constantinople. Nevertheless the sovereign attends public thanksgiving services in honor of Kemal's victories.

RAOUF BEY, chief of staff to Mustafa Kemal Pasha, Turkish Nationalist leader, is the real head of the victorious Turkish army that has occupied the whole coast of Asia Minor and now threatens Constantinople.

E. O. JACOBS, General secretary of the American Y. M. C. A. in Smyrna has reached Athens with other American refugees. Jacobs reports all Americans connected with the Y. M. C. A. have been removed to places of safety.

CAPTAIN ARTHUR J. HEPBURN, chief of staff to Rear Admiral Bristol, American high commissioner at Constantinople, superintended the removal to safety of Americans caught in flame-stricken Smyrna.

## WITH WOODROW WILSON AT A VAUDEVILLE SHOW

By Robert Talley  
Washington, Sept. 23.—When Woodrow Wilson goes to the theater—vaudeville show—

He doesn't occupy a box. He sits with the crowd—in the last row back, and on the extreme left aisle.

Mrs. Wilson, her mother, her sister, his secretary (Mrs. Wilson's brother, John Randolph Bolling) and a secret service man accompany him.

His auto stops in the alley alongside the theater, two attendants assist him through a side door to his seat which is only a few feet away.

The audience stands, faces him and applauds as he comes in, hailing heavily on his cane; he smiles and bows in acknowledgment.

At Keith's vaudeville theater the other night, I sat less than three feet from the ex-president and watched him enjoy the show. He was as happy as a kid at his first circus.

A female impersonator fooled him until he snatched off his wig at the end of his act.

With amused interest and frequent soft chuckles, he followed the songs and stories of a dapper young comedian.

Like jazz? Seems to be crazy about it. Patted his foot softly in keeping time with a jazz band that was part of a musical revue.

The grotesque doll dance of Adelaide and Hughes, old-time vaudeville favorites, seemed to win his particular admiration. He watched their antics through opera glasses, handed to him by Mrs. Wilson.

But what do you suppose tickled him most?

One of those animated cartoons in the movies, wherein a cat with highly flexible eyebrows and a long, nervous tail twitches his whiskers and stretches his neck like it was made of rubber.

"Ho, ho, ho!" came Wilson's soft, deep-throated chuckles as the feline got chased by polar bears and was threatened with sudden and terrible extinction in a dozen different ways.

This gag by Johnny Burke, soldier-comedian, got a good laugh from Wilson.

"I was diggin' a trench," related Johnny, "when along comes a captain and says: 'Whadda you throwin' all that dirt out here on the ground for?' 'Cause I ain't got no where else to throw it, I says back to him. . . . Then he says

## STRAUS SEES SPLIT AMONG THE ALLIES

(Continued from Page One)  
been to take advantage of this antagonism.

"The present situation has developed because Turkey took advantage of the jealousy between Great Britain, Italy and France.

"A new world conflagration may ensue unless Great Britain, Italy and France come promptly to accord. It was their failure to act in concert that caused the present situation to develop.

"Had the United States joined the League of Nations, the dominant moral prestige of our country could have prevented the disagreement between the allies and brought about an agreement in regard to Turkey. Then Greece would not have dared to begin the war.

"But Greece is immediately responsible for the present condition. During the war that nation was under the leadership of Venizelos, who proved himself one of the foremost statesmen of the allied powers. After deserting so well of his country he was deposed and made an exile.

"Had he been at the head of affairs Greece would not be in the plight she is in today. To escape from this plight, to avoid another world war, I would emphasize the necessity of these steps: (1) there must be immediate agreement between the allied powers: Great Britain,

The Pageant brought to the minds of our citizens the past history of the city and the state.

## The First National Bank Of Bismarck

is the

Pioneer Bank of Western North Dakota and the second oldest bank in the state.

Established in 1879. The original incorporators were:

- |               |                  |
|---------------|------------------|
| Walter Mann   | Dan Eisenberg    |
| W. B. Watson  | John A. McLean   |
| D. W. Maratta | John P. Hoagland |
| H. R. Porter  | Thomas McGowan   |
| Asa Fisher    | G. H. Fairchild  |
| A. H. Myers   | E. L. Strauss    |
| P. F. Malloy  | George Peoples   |
| John Yegen    | C. R. Williams   |

Its history parallels that of the city and it has shared in the vicissitudes, the trials and successes which have marked the life of Bismarck.

Today with capital and surplus of \$300,000.00 and resources well over \$2,000,000.00, it is experienced and equipped to care for the commercial requirements of Bismarck and Burleigh County.

## "An Old Soak"

Thomas McCormack, attired in this pre-Volstead rig-out, captured first prize at the annual pig parade in Coney Island, N. Y.

France, Italy and the others and (2) Venizelos should be recalled immediately and placed in power of Greece.

"And furthermore, if we are going to avoid another war, the Versailles treaty will have to be materially revised. This revision is possible only if the allied powers come to prompt agreement. Only a solid diplomatic front on the part of the allies can bring Kemal and his forces to terms.

"It is a world calamity that we have not cooperated with the allies by joining the League of Nations.

"Had we joined, the present situation, I believe, would not have arisen. As things now stand, it is within the realm of probability that for enlightened selfinterest we may be compelled to take a part in preventing a world conflagration and in restoring peace.

"And all this menacing condition finds its cause now, as in the past, in the opportunity given to the Turks by the mutual jealousy of those who opposed them. The present lack of concord between Great Britain, France and Italy emphasizes the fact that the Treaty of Versailles was in many respects unwise and was stimulated by a spirit of revenge rather than by that of calm and forward-looking statesmanship."

## LICENSE 107 YEARS OLD.

Rock Island, Ill., Sept. 23.—A marriage license 107 years old is in possession of Mr. and Mrs. J. B. Jones of Rock Island. It announces the marriage of Mr. Jones grandparents, Martin Jones and Margaret Hatton, over a century ago in what is now Sangamon county. The marriage took place Nov. 28, 1815, in a fort near the present site of the state capital.

The old license is written in English script, and bears the seal of John Springer, justice of the peace. The wording is as follows:

"Notis is hear by given that there is a marriage intended between Martin Jones and Margaret Hatton on the 28 day of November, 1815, given under my hand and Seal the 23 day of November, 1815."

## USED BY THREE GENERATIONS.

"I use Foley's Honey and Tar personally, give it to all my children and now to my grandchild with the same good results. I tried many kinds of cough medicines, but never found anything but Foley's Honey and Tar," writes Mrs. E. K. Olson, Superior, Wisc. Foley's Honey and Tar was established in 1876 and has stood the test of time serving three generations. It quickly relieves colds, coughs and croup, throat, chest and bronchial trouble. Adv.

## ARE IMPULSES TO LOVE AND SLAY THE SAME? CREAMY JURY MUST DECIDE

By Alexander Herman  
Mineola, N. Y., Sept. 23.—Is Oscar Wilde's famous "Ballad of Reading Gaol" to find its counterpart in the tragic life story of young and good-looking William Cressy, now on trial for the slaying of his fiancée, Miss Edythe E. Lavoy, the pretty 22-year-old school teacher?

Here in the Nassau county courtroom which once echoed with the testimony of the famous Carmon and De Saulles trial sits the man around whom the district attorney is trying to weave a mesh of testimony, based on his psychology which Wilde observed during his prison days:

"Yet each man kills the thing he loves,

By each let this be heard.

Some do it with a bitter look,

Some with a flattering word;

The coward does it with a kiss,

The brave man with a sword."

"He killed because he loved," says the district attorney.

"He couldn't kill because he loved," says the counsel for the defense.

The jury will decide and on the decision hangs the life of the prisoner.

Cressy met Miss Lavoy while he was in the navy. She had just come down from Tupper Lake, N. Y., to teach school in Long Island.

"Friendship," says Henry A. Uterhart, Cressy's lawyer, "ripened into love. Their engagement was soon announced."

## Difference Appears

"The young sailor went north to meet his bride's family.

On his discharge, he returned to his home at Covington, Ky., and went back to work as a mechanic in a car and foundry shop.

Miss Lavoy went on teaching in a Freeport school.

They wrote to each other regularly. Her letters were fervent, neatly written and choice of words. His letters were just as warm, but the handwriting was poor and the grammar bad.

"Cressy began to realize," his lawyer goes on, "that Miss Lavoy was above him culturally. He was just a mechanic without much schooling; she was a highly educated woman.

"So he tried to catch up. He took courses in a business school. But he found that the going was too hard."

Engagement Broken  
Slow thinking, but decided, Cressy finally made up his mind.

"I couldn't make Edythe happy," he told his lawyer. "It was all right

MISS EDYTHE LAVOY (ABOVE), WILLIAM CRESSY (BELOW) AND (LEFT) MISS EVA LAVOY, THE DEAD GIRL'S SISTER AND STAR WITNESS.

while I was in the navy, but now that I was just a mechanic, I felt that I was out of her class. She liked things that I couldn't give her—living in New York, going to big affairs, Yale-Harvard football games and the like."

So last spring the engagement was broken.

But their letters continued. They still loved each other.

"When there were rumors of a railway workers' strike," Uterhart explained, "Cressy decided to give up his job and go to Canada. On the way he stopped in to see Miss Lavoy. He wanted to return to her some presents that she had sent him."

They were alone in the girl's room in her boarding house when the tragedy occurred.

A shot from Cressy's .32-caliber pistol—and the school teacher was dead.

Cressy says it was suicide. While

he was napping on a couch, he says the girl went to his pocket, took his revolver, and shot herself in the right temple.

Why?

"She was despondent over her broken affair with Cressy," says his lawyer. "She loved him too well."

But the district attorney says it was murder and Miss Eva Lavoy, the dead girl's sister, agrees with him. She has come down from her home in Utica, N. Y., to be the star witness against him.

# How The New Tariff Will Effect Your Purse

A comparison between some of the schedules in the new tariff bill and those of the last two regular tariffs is the main feature of the leading article in THE LITERARY DIGEST this week. It will give the reader a satisfactory idea of what the increases in prices, if any, will be in the future.

Many Republican newspapers insist that the new tariff laws will ward off such a period of hard times as would have come after the enactment of the Underwood tariff had it not been for the outbreak of the great war. Already, says the Hartford Courant, "our markets are being flooded with cheap products from Europe and without a protective tariff the flood would become a deluge."

The Newark Sunday Call argues that "except in isolated instances where the duty on one class of goods is out of proportion to other duties, tariffs will not change the relative value of goods to another, that is, it will not raise real prices." Of course, this paper continues, it will add to inflation just as any tax would. "We are going to have both tariff and income taxes, but the more we have of a reasonable tariff the less we shall

have of income taxes, and since there must be inflation it matters little whether it is caused by a tariff or by some other taxes."

There are other Republican papers, notably the St. Louis Globe-Democrat, that declare that the legislation "is a grave blunder, as dangerous politically as it is economically." The Buffalo Commercial does not hesitate to say that "in its opinion it is a bad bill," which "will have the effect of unwarrantably increasing the cost of living."

Prominent Democratic newspapers all agree that the effect of the new tariff will be to increase the cost of living and to make Democratic votes this fall and two years hence. The Raleigh News & Observer is delighted with the New York Herald's designation of the new bill as "the damn fool tariff" and adds "that is what the people will be calling it when they find that it imposes burdens of indirect taxation of \$3,000,000,000 upon them and opens no markets for their surplus farm and factory products." This news-feature in THE LITERARY DIGEST this week, September 23d, is illustrated with cartoons depicting various opinions upon the tariff legislation.

### THE DIGEST'S NEW MOTION PICTURE

**"Fun From the Press"**

THIS NEW REEL NOVELTY, the only one produced and sponsored by The Literary Digest, has created an immensely favorable impression. If you have not already enjoyed this new 5-minute laugh-maker, write or tell the management of your favorite theater to show it. "Fun From the Press" is new each week. Go to theaters showing it for it's safe to assume that the rest of the program will be of equal merit.

# FINAL COUNT IN CONTEST WILL BE MADE AND WINNERS ANNOUNCED AT 1ST NAT. BANK

**First National Bank Will Be Opened Between 7 and 8 p. m. For Candidates To Make Their Final Reports. Judges Are To Be On Hand By 8 O'clock Sharp At The Bank For at That Time The Ballot Box Will Be Opened And The Count Made. Tuesday's Standing Will Be Added To The Judge's Count Of Votes In The Ballot Box And The Totals Will Decide The Winners.**

Tonight tells the story! Promptly at 8 o'clock this evening the five judges in the Tribune's Great Subscription Contest—Mr. Arnold, Mr. Bell, Mr. Thompson, Mr. Parsons, and Mr. Welch—will unlock the ballot box and make the final count of the standings.

For the last week the Tribune, the contest manager and all others have been absolutely without information as to the ranking of the candidates. All reports and receipts have been placed in the ballot box in sealed envelopes, the final check will be made in the directors room of the First National Bank, where the judges are to meet promptly at 8 o'clock and as soon as the ballots

have been checked and rechecked against any possible error the results will be announced and candidates then present will be given orders for the prizes they win.

**Eight O'clock Final**

The judges will be assembled and the final count commenced at Eight o'clock sharp, at which time the directors room will be closed to everyone except the judges, officials of the newspaper, the campaign manager and clerk of the evening. No one else will be admitted under any pretense, either friends of the candidates or the paper or campaign manager. This will eliminate any possibility of any unfairness to anyone.

## Additional Markets

### POTATO MARKET

(By the Associated Press)

Minneapolis, Sept. 23.—Potatoes: good wire inquiry; demand and movement good; market weak; prices lower; Sandland district carloads 7, a. b. usual terms, Minneapolis and St. Paul rates per cwt. 85c; U. S. No. 1, 85c; U. S. No. 2, 80c; round whites 95c @ \$1.00 sacked per cwt. Early Ohio partly graded 80c @ 90c, mostly 85c; Red River Valley points carloads 7, a. b. usual terms, Moorhead state sacked per cwt. Red River Ohio partly graded 75c @ 85c; mostly 80c @ 85c.

### CHICAGO CASH

(By the Associated Press)

Chicago, Sept. 23.—Wheat: No. 2 hard \$1.03 1/2; No. 2 mixed 93c @ 94c; No. 2 yellow 84c @ 85c; Oats No. 2 white 41 @ 41 1/2; No. 3 white 39 1/2 @ 40c; Rye No. 2, 72c; Barley 60c @ 62c; Timothy seed \$4.50 @ \$5.50; Clover seed \$13.00 @ \$15.00; Pork nominal; Lard \$11.10; Ribs \$10.00 @ \$11.00.

### WAR NEWS BEARISH

(By the Associated Press)

Duluth, Minn., Sept. 23.—The Turkish news led to selling in the wheat market at the opening today and prices were forced down substantially. It was assumed, however, that a fresh burst of buying on the part of exporters might be looked for immediately in the event of any untoward developments in the Eastern European situation and that the markets to be expected to respond proportionately.

The movement of spring wheat to the markets remains active with the railroads reported to be supplying cars satisfactorily. Market prices for fall wheat have fallen off at the terminals. Receipts of all grains here aggregated 894 cars.

The market was weak around the close. September, October and November wheat closed 2 1/2c off at \$1.05 1/2; nominally. September durum closed 2 1/2c off at 91c bid; October 2 1/2c off at 89 1/2c asked; December 2 1/2c off at 92 1/2c nominally. Spot rye closed 1 1/2c off at 69 1/2c; September 1 1/2c off at 68 1/2c; October 1 1/2c off at 68 1/2c asked; December 1 1/2c off at 67 1/2c bid and May 1c off at 73c nominally. Spot oats closed 1/2c off at 33 1/2c @ 34 1/2c; barley unchanged at from 47c to 50c; No. 2 yellow corn 1/2c off at 61 1/2c and No. 2 mixed corn 1/2c off at 60 1/2c. Flax closed under pressure of circulated overnight selling orders at the start and recessions were recorded. The market became slow after the selling had spent itself, and it remained draggy up to the close. Operators who had been prominent on the upturn were reported to be working for a lower level of prices. September closed 5 1/2c off at \$2.35 1/2; October 6 1/2c off at \$2.30; November 8 1/2c off at \$2.26 1/2; and December 8 1/2c off at \$2.29 1/2 bid.

## MANY PROBLEMS ARE INVOLVED IN WATER PLANT

(Continued from Page 1)

period said: "The Mandan city water just meets the requirements and can be used without boiling."

Comparison of quality.

Asked regarding a comparison of the purity of water of the two plants, Mr. Stanton said that the water probably is generally about of the same quality. Boiling is more frequently necessary in Bismarck on account of more frequent cleaning of reservoir in Bismarck. This more frequent cleaning in Bismarck, he said, is made necessary by the greater consumption in proportion to the capacity of the plant. It is probable that the turbidity of the water in Mandan is lower in the summer, this also being in part accounted for by larger consumption on this side of the river which prevents allowing the water as long to settle as in the Mandan plant.

N. H. Roper, water works commissioner, expressed satisfaction at Mandan's experience with her own water plant. The original plant, however, he said, was not built properly in all respects. There is lack of proper allowance for expansion in the reservoir, he said, and there is an electrical plant built as a part

## Child Tragedy

Roland Davis, 13 (below), of Atlanta, is facing a murder charge following the death of his playmate, Ella Mae Locklear, 12, said by police to have been killed by a bullet from the lad's rifle.

a charge of plotting against the state and the present regime, according to Athens despatches to the Exchange Telegraph today. Dr. Koryllos, a former university professor also was arrested on a similar charge, the despatch stated.

## ANNOUNCES POLICY.

London, Sept. 23.—The policy of Great Britain in the Near East is to establish the freedom of the Dardanelles under the supervision of the League of Nations, declared Prime Minister Lloyd George in a statement at a conference with the newspaper men this afternoon.

Mr. Lloyd George said that whatever steps the government had taken to strengthen the military and naval forces in the Dardanelles and the Bosphorus had been dictated by two supreme considerations: "First, our anxiety as to the freedom of the seas between the Mediterranean and the 'Black Sea,' and second, 'to prevent this exceptionally horrible war from spreading into Europe.'"

## CONSIDER ARTICLE TEN.

(By the Associated Press)

Geneva, Sept. 23.—The question of revising article X of the League of Nations covenant or eliminating it altogether was passed on to the fourth assembly by the present assembly today without other observation or recommendation that the subject be considered in all its bearings.

The Canadian delegation showed no disposition to push Charles J. Doughterty's amendment eliminating the article.

## TO AWAIT ENVOY.

(By the Associated Press)

Constantinople, Sept. 23.—The French government has sent a wireless message to Mustafa Kemal Pasha requesting him not to take any action until the arrival of the special French embassy, it was learned here today.

## BOMBARD CHIOS.

Turkish airplanes have bombarded the Greek island of Chios and Mytilene off the Asia Minor coast in the Aegean.

## BANDITS MAKE \$15,000 HAUL IN SMALL BANK

(Continued from Page One)

my hands," Miss McDonald who is 26 years old, said after the robbery. "There was nothing to do but follow their instructions as they continued to threaten me as they looted the vault."

Miss McDonald seemed entirely composed shortly after the robbery, although she insisted it had made her "a little nervous."

The entire loss is covered by insurance.

## ESCAPE WITH \$7,500.

Winnipeg, Man., Sept. 23.—Robbers blew the safe at the branch of the Union bank at Melita and escaped with approximately \$7,500, according to information received by police officials here today.

## THE WEATHER

For twenty-four hours ending at noon today:

Temperature at 7 a. m.	46
Temperature at noon	73
Highest yesterday	88
Lowest yesterday	57
Lowest last night	46
Precipitation	0
Highest wind velocity	16

## WEATHER FORECASTS

For Bismarck and vicinity: Fair tonight and Sunday; slightly warmer Sunday.

For North Dakota: Fair tonight and Sunday; cooler east portion tonight, slightly warmer Sunday west portion.

## General Weather Conditions

The pressure is high over the northern Rocky Mountain and northern Plains States and fair, pleasant weather continues in all sections. Temperatures have risen in the Mississippi Valley but have dropped in the Plains States and northern Rocky Mountain region.

## BANKS ABOVE REQUIREMENTS

New York, Sept. 23.—The actual condition of clearing house banks and trust companies for the week shows that they held \$39,582,850 in excess of legal requirements. This is a decrease of \$60,804,610 from last week.

## Carpentier Regarded As Sure Winner

Paris, Sept. 23.—George Carpentier is looked upon by the experts as a sure winner over Battling Siki, the Senegalese pugilist, in their 20 round fight for the European heavyweight title to be held tomorrow afternoon in the Buffalo Velodrome, outside Paris.

The contest has drawn the biggest seat sale ever seen in France, as this is the first opportunity of the French fans in three years to see their champion in action. Few of them expect to see anything but an easy knockout, and the big prospect

## Bonded Liquor To Be Concentrated

Cincinnati, Sept. 23.—Approximately one and a half million gallons of bonded liquor will be concentrated at a point near here if plans of federal prohibition commissioners are carried out. The liquor will be assembled from points in Indiana and southern Ohio, under the plans.

The international revenue department for the first Ohio district reported a total of \$61,885.7 gallons of liquor in warehouses on September 1. This district is comprised of a small section of southwestern Ohio. The prohibition commissioner for Ohio was unable to state the approximate gallons of bonded liquor in the southern Ohio territory, but the rev-

enue office at Cleveland stated there was between 2,000 and 3,000 gallons in storage in his district.

There was about 605,000 gallons stored in the four bonded warehouses in Indiana, according to the revenue office at Indianapolis. The warehouses are located at Lawrenceburg, Vincennes, Terre Haute and Hammond.

## AN OLD SCHEDULE.

New York, Sept. 23.—Daylight saving, observed in New York since April 30, ends tomorrow.

## TOO LATE TO CLASSIFY

FOR SALE—Barn 18x28, twelve foot posts, double boarded, substantially built for \$300; much less than the value of the lumber. Also cook stove, Bucks, \$25; heater, Art Garland, \$20; hand power washing machine \$5. Call at 615 Eighth Street. 9-23-3t.

## FOR SALE—Furniture, including

bed, dresser, chiffonier, davenport, library table, and small kitchen table. Apartment 7, Tribune Co. Phone 870-W or 180. 9-23-3t.

## Dancing on The Roof every

Wednesday and Saturday evening. Come and enjoy a dance while the weather is good up in the air.

tive attendance is looked upon as an indication that Carpentier has regained much of his popularity.

## PLANS MEET MEETING.

Chicago, Sept. 23.—Plans rapidly are being completed for the program of the sixteenth annual convention of the Institute of American Meat Packers, to be held here from October 9 to 11. The business program will include the three days of the convention and the evenings will be left open for entertainment.

## REST CLOCKS

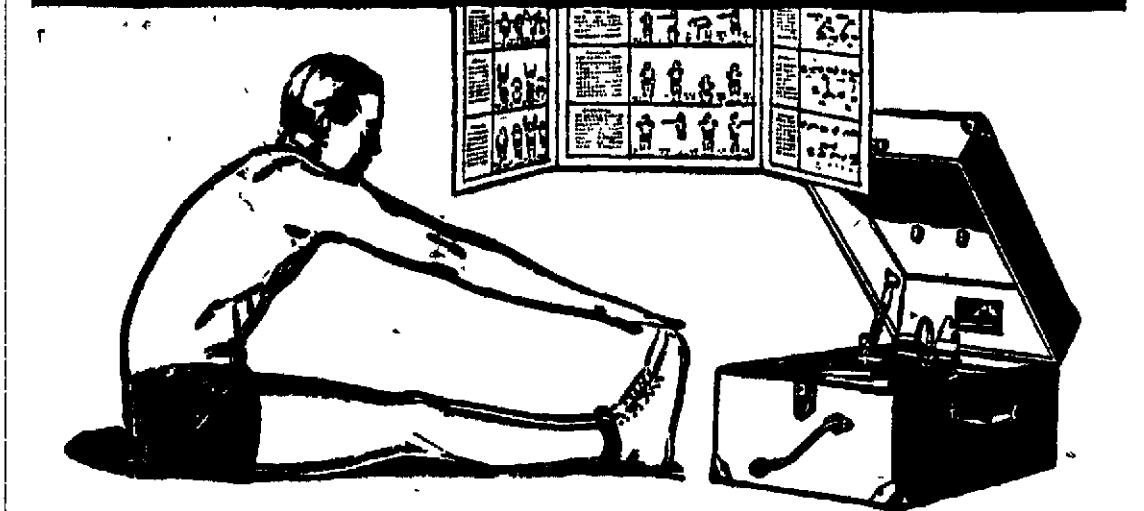

You can go to sleep at night or take a nap in the day time and thoroughly relax, really rest, if one of our Alarm Clocks is beside you.

IT will watch the hours, count the minutes, and when the time's up call you gently, positively, pleasantly.

Our clocks are insurance against oversleep. Several sizes, styles and prices. Some that glow time in the dark from hands and numerals coated with radium compound.

(Established 1876)

THE 67TH CONGRESS

Judgment on the record of the 67th Congress, the first regular session under the Harding administration, must be deferred until the future reveals the good or bad effect of some of its most important provisions. This is especially true of the tariff, on the effect of which even experts on the subject differ. In the passage of the McCumber-Fordney bill a Republican Congress has reaffirmed the principle of protection to American industries and American workers. It has fixed a tariff which will permit new industries to compete with the competition of cheap foreign labor. The tariff as passed is not a popular measure. The attacks have been bitter and have made an impression on the public mind. Many forget the depression of 1914 which followed the advent of a Democratic administration and the Underwood tariff law. They do not realize that the war and abnormal conditions from that time until the present created a more effective tariff barrier than ever had been erected by legislation, and therefore cannot see reason for change. In the McCumber-Fordney bill, however, a Republican Congress has accepted a provision that has been sought by "progressive protectionists" for many years in varying forms. A flexible tariff is provided. The President is given executive power to make adjustments in the tariff in accordance with the principle that the tariff primarily shall represent the difference between cost of production in America and in foreign countries. President Harding has rightly commended Congress for this provision, which he declared one of the most progressive steps in American legislation.

Congress cannot look back upon the earlier bonus legislation with pride. Before Congress was a bill which was either right or wrong. If right it should have been enacted without delay; if wrong, it should have been disposed of as quickly. Yet the long delay and the form in which the bill finally was passed rise to a suspicion in the minds of the people that political consideration impelled the action of many Senators and Representatives in Congress. This cannot be said of Senator McCumber, who at all times was considered at one time, an impossible thing in securing senatorial approval. He continued to fight fully as vigorously after his defeat in the June primaries as before. Although he was offered many opportunities to gracefully resign from his position.

Headed by the tariff bill, the session's most important legislation provided for:

Creation of the Allied Debt Funding Commission.

Appropriation of \$20,000,000 for Russian relief.

Appointment of a "dirt farmer" on the Federal Reserve Board.

Cooperative marketing by farmers.

Regulation of grain futures, so as to meet the Supreme Court decision, making the original Capper-Tincher law inoperative.

Creation of 25 more federal judges.

Extension of the 3 per cent immigration quota law for two years.

Scrapping of naval vessels in accord with the arms conference treaties.

Reorganization of the Patent Office with an increase in its force.

Reorganization of the basis of pay of army, navy and marine officers.

Decrease in personnel and expense of the army and navy.

Monthly payment of pensions.

Development of rivers and harbors.

Appropriation of \$7,500,000 to continue work on the Muscle Shoals, Ala. power project.

Appropriation \$1,500,000 to loan farmers for seed grains.

Appropriation \$500,000 for prosecution of war frauds.

Continuation of the war-times bonus pay of federal employees.

The Congress was attacked as reactionary, yet its record does not so indicate. Among the measures passed were a bill providing for the appointment of a "dirt farmer" on the Federal Reserve Board, regulation of grain futures bill, making co-operative marketing by farmers, Congress also appropriated with alacrity \$500,000 asked for prosecution of war frauds.

tion of war funds, and ratified the arms conference treaties providing for the scrapping of naval vessels. It reaffirmed America's expectation that European nations would pay the war debt to this country but made through the Allied Debt Funding Commission an agency for collection without hardship upon those nations that had been our allies in time of war. One of its last acts was an anti-coal profiteering bill with teeth in it.

With the President urging and the exchangers of the government demanding a program of economy at this time the 67th Congress was confronted with the most urgent demands for exercise of governmental paternalism and financial aid in twenty years. The several appropriation bills passed carried about \$2,250,000,000, and were the first passed under the new budget system and the reorganized congressional appropriation committee, which great economies have been made.

THE POISON CREEP

Poison gases, developed during the war, eventually will exterminate the cotton boll weevil. This is predicted by Brig. Gen. Ames A. Fries, chief of the army's Chemical Warfare Service.

Extinction of the boll weevil would mean a money saving running into hundreds of millions of dollars a year.

This insect's ravages in 1921 cut the American cotton crop 5,277,000 bales of 500 pounds each, or nearly five times as much as in 1909.

The boll weevil's damage averaged 109 pounds for each acre devoted to cotton culture.

Nearly a third of last year's potential crop was destroyed by the weevil.

General Fries says: "That the boll weevil will be exterminated, I am certain. The length of time it will take for such control will depend in a large measure upon the funds available for increasing our knowledge of poisoning compounds and applying them to the solving of the problems of the boll weevil."

Poison gas unquestionably has a great future as an exterminator of insects, and animals. It is being used, with much success, in killing rats, gophers and other rodents which are destructive to pastures and fields and which carry dread diseases such as bubonic plague.

In the Philippine islands our army gas experts are beginning a poison gas campaign to destroy the locusts which cause terrific damage to crops.

This is "scientific progress, born of the war."

But when you take the peace time use of poison gas, and compare it with its evil work in the war, you realize that humanity is getting less than 10 cents in exchange for \$10.

There is such a thing as "progressing" backward.

CHINESE

You could learn to talk Chinese in six months, says Franklin C. H. Lees, linguist. White children born in China "pick up" Chinese words more easily than English words.

The old Chinese language, with no alphabet, has 40,000 characters. This has been simplified into an alphabet of 39 letters. With our foreign trade future swinging from Europe to the orient, the day may be ahead when as many Americans will study Chinese as now study French and German. Education follows trade more than trade follows the flag.

WET FIGURES

Wets are circulating figures showing that alcoholic deaths are increasing. It is even claimed that in some communities, liquor is killing more people than before prohibition.

More drunks may be dying abruptly. But fewer are dying slowly by chronic alcoholism. As an instance, the gentleman with hardened arteries or puffs under his eyes is not seen as often as in the old days. The death score remains in favor of prohibition.

GRAIN

In the British grain market, experts estimate that this year's harvest of the six cereal crops of Russia and Ukraine will total about 39,000,000 tons, against 27,000,000 last year and 66,000,000 in 1916. That should be enough to keep Russia alive on a restricted diet.

But there is no excess for export, which will please American farmers who know what grain prices already low, would be if Russia were selling heavily in the international market.

EINSTEIN

Einstein's brain gets into deeper water. He turns from his relativity theory and begins studying electronics and the quantum theory. This theory is that radiations such as light are streams of flying particles of matter instead of waves or vibrations in the ether.

Such probably is the case with radium.

TURKISH MASSACRES

The Turkish massacres and military comeback probably would not have occurred if the United States had not been afraid to take part in European affairs. This is the opinion of Dr. Christian F. Reiser, preaching in New York after a long tour in Europe.

America is becoming the world's official goat. You have noticed the tendency to blame us for every-

thing that goes wrong in Europe. Before long we'll probably be charged with starting the war.

United States, however, will move slowly in the present crisis.

LOVERS

A Pennsylvanian lover, arrested by State Trooper Larsen, is fined \$50 for the feat of driving his auto 50 miles an hour and kissing his girl every time a telephone pole flashed past.

Old-timers, who recall moonlight buggy-rides, slow rides and slow kisses, thus see another evidence of "efficiency" in "sparkin'."

SPEED

Every dollar in the country is changing hands seven times a month. Bank clearings in August exceeded \$39,000,000,000, or more than seven times as much as the total amount of money in circulation.

If you can hang onto a dollar four and a half days, you are doing better than the average.

TYPED

A new typewriter is invented, with 32 more keys than are on machines now used. These keys print such words as "the," "was," "are," "and," etc. The inventor claims that these 32 words, on the average, make up 32 out of each 100 words used in typewritten correspondence. Conversation is becoming a lost art. Letter writing already is.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important questions which are being discussed in the press of the day.

THE TURKISH JEANNE D'ARC

In Constantinople college 20 years ago Halide Hanoum was a shy and serious student. On graduating and having to make her way, she decided to become a journalist. As a writer of stories she gained popularity, and then passed to political writing. She also became a good speaker and was the leader of modern Turkish women. During the war she spent some two years in and around Damascus. At the end of the war the Turks were weary, as they had had 12 years of constant fighting, covering the period of both the Balkan war and the World War. They had a longing for peace, and believed in the declaration of the Allies and especially the principles of President Wilson. They said to the American mission on mandates: "If America will take the mandate for Turkey, every Turk will throw away his arms and do his utmost in the work for peace."

Smyrna was quiet and easily kept in hand by 10 or a dozen British officers, but, unhappily, the announced arrival of the Greek fleet broke the terms of the armistice. The news was soon carried by refugees to Brusa and Constantinople. The national spirit was revived and a vast mass meeting of protest was held in the Hippodrome at Constantinople. Something like 150,000 people were there, and the person that they wanted particularly to hear was Halide Hanoum. She became the foremost person in expressing this Turkish spirit. The Allies began to arrest the Turkish leaders. They just missed Halide, who was conducted across the Bosphorus by her friends and, drove in a car as a peasant woman to Angora, where since she has been the minister of education and her husband the minister of public health.

Under the leadership of Mustafa Kemal the Turks have regained their position at the head of the Moslem world. A year ago there was an excellent crop in Anatolia. The bolsheviks needed it, and sent gold rubles for it. Part was given to the Turkish army, so that the poorest and most ill kept soldiers in the world were the only ones being paid in gold.

The intense interest in the struggle started so much of a Moslem wave in Africa, and the French Moslem leaders took so strong a tone, that the government was obliged to take notice and made a hasty settlement with the Angora government. All of the Moslem country in the Italian part of Africa was at stake, and the leader of the great Senussi territory was a refugee and working with the Angora government. So the Italians also were forced to make terms. The one backer left of the Greeks is the British government. — New York Times.

BRIDGE DEDICATION

Quite a number of Emmons county people have been in Bismarck this week attending the celebration of the opening of traffic of the mammoth new vehicular bridge between Bismarck and Mandan.

The completion of this bridge is as important to road travel as the building of the N. P. bridge was to railway travel many years ago. Historical scenes of pioneer days were depicted under the direction of those who had a part in the stirring days of the last century. The new bridge will mean much to the entire Northwest, but it should prove an especial blessing to the North Dakota Twin Cities—Bismarck and Mandan. — Emmons County Record.

D. B. C. MAN NOW U. S. TAX EXPERT

With a practical business education to start with, W. M. Schantz got a Government position shortly after graduating from Dakota Business College, Fargo, N. D. Promotions were rapid. He is now Inspector of Income Tax, Washington, D. C.

It pays to qualify for government work. Right now \$1800-a-year stenographic secretaries and \$3000-a-year auditors and accountants are wanted for Internal Revenue work. Enroll NOW at Dakota Business College and "Follow the Successful."

Our magazine, Success, sent free one year. Dakota Business College, 806 Front St., Fargo, N. D.

She (at the theater)—It's frightfully close in here.

He—Cheer up. The orchestra will change the air in a minute. — Boston Transcript.

ONWARD INTO BATTLE

MINNEAPOLIS Lots of Parks, Comfy Homes, Government

By W. H. Porterfield

They still call Minneapolis and St. Paul the "Twin Cities," but that's a tradition from the time half a century ago when they looked the part. Minneapolis, the largest Scandinavian city in the world outside Sweden, has long since run away in growth from St. Paul, its population being 380,000, 100,000 more than its "twin sister."

And if it's government you want, Minneapolis has enough and some to spare; a mayor and 28 councilmen, elected from 13 wards and drawing \$1800 the year, with boards of education, park commissioners and all sorts of other boards and commissions for pretty nearly everything you can think of.

The biggest thing about Minneapolis is her magnificent park system, beyond a doubt the most elaborate of any city of her size in the world—4000 acres of splendidly improved parks.

Within the city limits are five large spring-fed lakes and a number of smaller ones. Along the shores of these beautiful lakes in summer one may see the entire juvenile population of the city in bathing costumes of every shade and pattern, and upon the lakes a thousand lover-laden canoes and tiny sailboats, while one citizen told me of coming home after the day's work, changing clothes, going out and catching a four-pound black bass in 25 minutes! And he had the fish to prove his story!

City Has Cafeteria

Free band concerts at Lake Harriet every evening all summer follow cafeteria dinners at the city's own cafeteria, where frequently 1200 persons are served at nominal prices, and the cafeteria pays a profit, too. Here's an idea for most any city.

Minneapolis is spending now \$1,700,000 on two more lake parks in the city, parks for the factory people—and that brings me to the housing problem.

Nowhere else outside Southern California have I seen such comfortable homes for the people of moderate incomes as have the built here miles of them, of distinctive architecture, and with most attractive surroundings.

An able city planning commission is in charge of all building, requiring eight feet separation for houses, for one thing, and many other requirements not dreamed necessary in other less progressive cities. As a result, the section of Minneapolis inhabited by the folks who work with their hands is one of the most attractive features of this beautiful city.

They used to say here that unless you were a Scandinavian, you couldn't hold office or expect to rise very high in the social world, but that is all passed now. An American-born citizen, even of American parentage, is just as good a man in Minneapolis as any other, if he behaves himself.

Minneapolis, as all the world knows, is the world's chief flour manufacturer, her mills at St. Anthony's Falls on the banks of the Mississippi having a capacity of 18,000,000 barrels annually.

The city stands third in the country as distributor of fruit and produce and its annual manufacturing output is well over the billion mark. The two cities with suburbs have more than 750,000 population and because of the splendid system of paved highways now being extended to all parts of the northwest, these cities are becoming the "vacation capital" of a large section of our country.

With its great state university, its famous symphony orchestra, municipal band and art galleries, Minneapolis is rapidly also becoming a great cultural center.

A THOUGHT

A wholesome tongue is a tree of life; but perverseness therein is a breach in the spirit.—Proverbs 15:4.

He falls into sin is a man; that grieves at it is a saint; that boasts of it is a devil.—Thomas Fuller.

TODAY'S WORD

Today's word is—SACROSANCT. It's pronounced—sak-ro-sankt, with accent on the first syllable. It means—sacred, inviolable. It comes from—Latin "sacrosanctus," which, in turn, is from "sacer," sacred.

It's used like this—"The French say that when they considered their interests in danger from post-war developments, the English poo-

to get it back. Here's a magic bean like the one Jack the Giant Killer planted.

"See, now I'll plant it! There, it's growing already. Soon it will reach the sky. Now you climb up and chase those Twins as fast as you can."

(To Be Continued.)

MANDAN NEWS

Mrs. H. R. Lyon, Mr. and Mrs. Ernst Mahler, Robert L. Meech and Mrs. G. L. Hegard of Minneapolis, Minn., have left for their home after spending a pleasant week as guests of Mr. and Mrs. J. H. Newton and other friends in Mandan.

Mrs. Otto Bauer left yesterday for a visit with friends and relatives in the Twin Cities.

Mr. and Mrs. William Tobin are guests at the home of the former's parents, Mr. and Mrs. Dennis Tobin.

J. Leonard Krutz has left for Boston, Mass., where he will enter school. He was accompanied by his cousin, Mrs. F. C. Carson of Boston.

Teachers employed in the Mandan schools last year were hostesses to the new teachers this year at a duck party given at the home of Anton Olson.

SMILE AWHILE

"Here's a late picture of my aunt—she's a former prima donna."

"Why isn't she still? She looks large enough."—Kansas City Star.

"He borrowed a quarter from me, but I wish it had been ten dollars."

"Why?"

"He'd remember borrowing ten dollars, but he'll forget all about the quarter."—Detroit Free Press.

"She is an angel."

"I heard her using rather vigorous language just now."

"That angel?"

"Over her water wings."—Louisville Courier-Journal.

She—You don't mind my talking so much, do you?

He—No, indeed, but (facetiously) I may mind after we are married.

She—Oh, I shan't mind your mind then.—Boston Transcript.

Niggah, what is yuh from?"

"Ah ain't from niggah. Ah lives hyah."—Life.

"Why do improper plays prosper?"

"Because," said Miss Cayenne, "so many proper people apparently think it necessary to study impropriety in order to avoid it."—Washington Star.

Traffic cop (signalling)—"Come on! What's the matter with you?"

Truck driver—"I'm well, thanks. But my engine's dead."—Boston Transcript.

Cannibal Prince—"Am I too late for dinner?"

Cannibal King—"Yes; everybody's eaten."—Atlantic Constitution.

"You are a fortunate man," said the automobile tourist.

"How's that?" asked the farmer.

"You are monarch of all you survey."

"Why don't you buy a nice car?"

"It wouldn't look well."

"Er?"

"I have the money, but—"

"Yes?"

"I'm a bank cashier."—Louisville Courier-Journal.

"What's worrying you now?"

"A problem of unemployment."

Said Senator Sorghum "I have a whole lot of money available for my campaign fund and I don't dare use it."—Washington Star.

"It is our duty to be cheerful under all circumstances."

"I don't think so," replied Cactus Joe.

"A man who can grin when he has had a full hand beaten is a mere hypocrite."—Washington Star.

Ain't It Just So.

Professor Dink Leeson says he has just got back from a stay at the beach and while he was there he put up with the Fritz Millers and Fritz lay out till breakfast was ready and then after breakfast sat out on the pier and fished until dinner time and after dinner lay out in the sand until supper and after supper read till bedtime, and Mrs. Fritz after breakfast cleaned house and swept till dinner-time and after dinner sewed and baked till supper-time and after supper did head work till bedtime. And the day they got home Mrs. Miller bragged about what a wonderful rest she had got and started on a campaign of house-cleaning and putting up fruit, but Poor Fritz complained of being worn out and had to ask the firm for three additional days off to recuperate in.—Los Angeles Times.

OUR FOOD TODAY BEST WORLD KNOWS

Rome, Sept. 25.—When all the world is complaining of what it costs to buy a good dinner, as compared to the days before the war, an Italian investigator has come forward with the statement that never before have the people been as well fed as at present.

Signor Pedazzoli has analyzed the descriptions, in old writings, of the hundred-course banquets of the middle ages, and the recitals of whole cows prepared for the feasters. He finds that when such things did happen so many people sat down to the meal that each individual portion was very small. Such dinners also were the lean years. Then the people were thin and pale, and at this time originated the expression "tighten up your belt."

There is a big prune crop. Heaven help the boarders.

Married life in a flat has a tendency to become that way.

Oh, what is so rare as a quiet day in Ireland?

The bonus bill rates another wound chevron.

What makes a cat madder than seeing the dog catcher loafing?

The Shaker Cult at South Union, Ky., is bankrupt. That reminds us, Ford closed his plant.

For the land's sake, pay the farmers for their crops.

Our oil output is increasing. And since school opened the castor oil intake is increasing.

When you see a man laughing he may be a coal dealer who has just looked at the calendar.

John J. Butler was killed while shaking a rug. Show this to your wife next time.

Clemenceau, the French Tiger may come over here for an attack on American banquets.

"My Wild Irish Rose," is a new movie. Lloyd George thinks it is what the Irish did.

Milkmen's association protests tramps steal cream. Sounds like vanishing cream.

Having a two-dollar bill may be bad luck; but not having one is often worse than that.

The man who talks to himself wants to hear something he can believe.

Rickenbacker, famous aviator, is married. While he works his wife will look up to him.

Harvard has good football prospects, but Yale plans to spill the Boston beans.

Bread wasn't made with yeast until 1650, but some of it hasn't kept very well.

Turkish atrocities are being committed in Asia Minor and smoked in the United States.

A man does not always say what he thinks because it is not proper to cuss before ladies.

Some wives think their duty is to play bridge and work Bridget.

Ex-Senator Cole is 100 years old. He can remember years and years ago when Congress worked.

AMERICANS KEEP THEIR SHOES WELL POLISHED

It has been said that American men and women are the best dressed people on earth. Certainly they shine in comparison with the people of most other countries.

And speaking of shining, it is apparent that being well dressed means attention to the details—such as keeping the shoes well polished. Beginning right at the start, as it were.

Think of the number of individual shines contained in four carloads of Shinola! Yet recently, an advertising and sales campaign was run in San Francisco, and four solid cars of Shinola were shipped here, all of which were sold in that city and Oakland. It is quite evident that the people of the Pacific Coast are firm believers in keeping their shoes well shined, and incidentally, must appreciate that Shinola, and Shinola Home Sets, are the convenient means of doing so.

Judging from the large increase in the volume of Shinola business, people not only on the Pacific Coast, but everywhere, are paying more attention to the appearance of their shoes, and keeping them well polished, for the manufacturers report that in volume of sales, 1922 is the biggest year in their history.

The Shinola Company is a consistent

## SOCIAL AND PERSONAL

## To Organize Play In Grade Schools

In the grade school an effort is being made to organize the children's play. Miss M. Walker, director of physical education, has charge of the work and with the cooperation of the grade school to effect the play of the children effectively. Miss Walker will supervise the children individually at least once a week.

Since the opening of school the resignation of the three kindergarten teachers has been received. Miss M. Walker, director of the kindergarten, resigned as a result of being called away by the death of her mother, Miss Anne Mullany and Miss L. P. Pierce have sent in their resignation since the opening of school.

Miss F. B. Bently, formerly first grade teacher at Wachter school will take charge of the Richholt and Wachter kindergartens and Miss Mabel Olson will take Miss Bentley's place. Miss Lavina Regter will take charge of the Will school kindergarten.

## Caddies Play Golf Tournament Today

The grown folks are not the only ones who enjoy golf and golf tournaments. The caddies at the local links staged a tournament today. Five of these youthful golfers were competing for honors in the "great American game for presidents." The youngsters entered the field with great enthusiasm. Spectators who were on the grounds to see the youthful champions take off reported that some older folks might feel proud to swing the clubs with equal finesse.

## RALLY DAY AT PRESBYTERIAN CHURCH SUNDAY

The Sabbath school of the Presbyterian church will observe Rally Day Sunday at noon. All departments will meet at 12m when the annual graduation will take place. Promotion certificates will be given to all the pupils in the elementary division of the Sabbath school and diplomas will be given to all pupils who are promoted from one department to another.

**TO RESUME COLLEGE WORK.**  
Miss Margaret Smith will leave tomorrow on No. 2 for Riverside Cal., to resume her studies at Junior College, a branch of Berkeley. Enroute she will visit relatives and friends at St. Paul, Minn., and Sioux City, and Omaha, Ia.

**FORMER RESIDENT HERE.**  
C. H. Flint of Austin, Minn., is spending several weeks in Bismarck on business, connected with the Horrell Packing Co. Mr. and Mrs. Flint lived at Person Court until a short time ago when they moved to Austin.

**RETURNS TO COLLEGE.**  
Albert Cook, who has been visiting his mother, Mrs. A. W. Cook, during the past several weeks has returned to Grand Forks, where he will continue his work as a junior in the University of North Dakota.

**RETURNS HOME.**  
Mrs. Harold E. Winchester of Hazleton, who has been visiting at the home of Mr. and Mrs. Fred Conklin returned to her home today.

**TO WINTER IN CANADA.**  
Mr. Eliza M. Suttle, a pioneer of Bismarck, left this morning for Brighton, Ont., to spend the winter with relatives.

**TO LEAVE FOR SCHOOL.**  
Miss Florence Homan will leave tomorrow for St. Paul, Minn., where she will enter St. Catherine's school. Mrs. John Homan will accompany her daughter to St. Paul.

**TO VISIT SON.**  
Mrs. C. W. Neff of Elkhart, Ind., has returned for a month's visit at the home of her son, E. H. Neff and family.

**RUMMAGE SALE.**  
The women of the Catholic church are planning a rummage sale for October 1. All the women are asked to begin preparation for the sale.

**P. E. O. SISTERHOOD MEETS.**  
Chapter P. E. O. Sisterhood, will meet Monday at 8 p. m. with Mrs. F. R. Smyth, at her home on Third street.

**LOCAL TELEPHONE GIRL.**  
Miss Marguerite Mickelson, toll operator at the local telephone office has an article on "The Attractive Smile Voice," in the last issue of the "Northwestern Bell."

**TO UNIVERSITY.**  
Arthur Lucas, Jerome Conway, and Vincent Cleveland of Washburn will leave tomorrow for Grand Forks to their university training.

**LEAVE FOR FARGO.**  
Phil Boice, Franklin Roberts and John Lohach will leave tomorrow for Fargo to attend the state agricultural college.

**LEAVING FOR COLLEGE.**  
Miss Alice Webb will leave tomorrow for Grand Forks to continue her work at the University of North Dakota.

**CATHOLIC DAUGHTERS.**  
The Catholic Daughters of America will meet Monday evening at 8 o'clock at St. Mary's Auditorium.

**COUNTRY CLUB DINNER.**  
Mr. and Mrs. E. J. Taylor entertained at dinner at the Country club yesterday evening.

**ON AUTOMOBILE TRIP.**  
Mr. and Mrs. Oliver Webb and Mrs. P. B. Webb left this morning by automobile for a week or ten days trip to Fargo, N. D., and Detroit, Minn.

Mr. and Mrs. H. J. Conlin of Jamestown stopped over for a short

## Shuns Fame for Love

Miss Cora-Lee Reed, Little Rock, Ark., picked by Howard Chandler Christy as the most beautiful girl at the University of Illinois, has foregone fame and a stage career. She'll wed Robert Barle, Morrilton, Ark., and live with him in an obscure country town.

visit with friends in Bismarck today.

## BARN DANCE

A barn dance will be given Wednesday, Sept. 27, at the home of Mr. Jeanie Moan, 31-2 miles southeast of the city, for the benefit of the dairy circuit.

Mr. and Mrs. Reo. H. Janssen, Marsh, Mont., arrived in Bismarck last evening for a short visit.

George C. Rust, Leo J. Wagner, and A. Valsted of Minn. were business visitors here today.

Harry Weisman and family of Mr. Leuchlin, S. D., are visiting in Bismarck for a few days.

Mr. and Mrs. Dave Ruck of Napoleon, Minn., visited in Bismarck today.

J. L. Larson and W. H. Drescher of Minot were business callers here this morning.

H. M. Robinson of Fargo, made a business trip to the Capital City yesterday.

George C. Helling of Minot was a business caller here today.

Louis Miller of Wilton, visited in the city today.

## FINE YIELD.

Mrs. Anna Knauss of 7th street, reports that she obtained a yield of 30 bushels of oats per acre on her section south of Britton, N. D. There was a yield of about 25 bushels of wheat per acre on the same land, she says.

Weather permitting the Roof Garden will be open for dancing Saturday night. Service a la carte. Many people have enjoyed dancing on the Roof as the evenings have been delightful.

Dance at the Coliseum tonight.

The women of the Catholic church are planning a rummage sale for October 1. All the women are asked to begin preparation for the sale.

P. E. O. Sisterhood Meets. Chapter P. E. O. Sisterhood, will meet Monday at 8 p. m. with Mrs. F. R. Smyth, at her home on Third street.

Local Telephone Girl. Miss Marguerite Mickelson, toll operator at the local telephone office has an article on "The Attractive Smile Voice," in the last issue of the "Northwestern Bell."

To University. Arthur Lucas, Jerome Conway, and Vincent Cleveland of Washburn will leave tomorrow for Grand Forks to their university training.

Leave for Fargo. Phil Boice, Franklin Roberts and John Lohach will leave tomorrow for Fargo to attend the state agricultural college.

Leaving for College. Miss Alice Webb will leave tomorrow for Grand Forks to continue her work at the University of North Dakota.

Catholic Daughters. The Catholic Daughters of America will meet Monday evening at 8 o'clock at St. Mary's Auditorium.

Country Club Dinner. Mr. and Mrs. E. J. Taylor entertained at dinner at the Country club yesterday evening.

On Automobile Trip. Mr. and Mrs. Oliver Webb and Mrs. P. B. Webb left this morning by automobile for a week or ten days trip to Fargo, N. D., and Detroit, Minn.

Mr. and Mrs. H. J. Conlin of Jamestown stopped over for a short

Braddock, Ray Atkins of Elbowoods, Master Henry Otway Wray, and Mrs. S. F. Lambert of the city have been discharged from the hospital.

**Bismarck Hospital.**  
Ben Holweiger of Wishek, Mrs. Dan Giese of Elgin, Gaylord Thompson of Mandan, J. H. Anunson of Driscoll, Baby Mabel McAdoo of Werner, Kenneth Wiley of Jamestown, and Mrs. Aug. N. Johnson of Leith have entered the Bismarck hospital for treatment. Miss Hilda Carlson of Underwood, Clara Steadman of the city, Miss Edna Muller of Stanton, Mrs. O. L. Krugness of Douglas, Mrs. William Baird of Halliday, and Mrs. Philip Fuchs of Paradise, have been discharged from the hospital.

## 2 Children Sustain Injuries in Accidents

Elmo E. Berg, 6-year-old son of H. M. Berg of the city, sustained a fractured arm when he fell from the bicycle which he was riding yesterday evening. He was taken to the Bismarck hospital for treatment.

Vernal Anderson, 3-year-old son of Victor Anderson of Wilton, received a deep gash across the nose at the base of the brain yesterday when he fell down the cellar at the Anderson home. Vernal was brought to the Bismarck hospital yesterday but was able to return to his home this morning. While the cut was painful, it is not considered dangerous.

## Frances Koch Passes Away Here

Frances Koch, 2-year-old son of Mr. and Mrs. Christ J. Koch, passed away at a local hospital yesterday afternoon at 2 o'clock. Mr. and Mrs. Koch who were former residents of Bismarck have only recently returned from the West.

Funeral services for Frances will be held tomorrow afternoon at 2 o'clock from the Webb Bros. funeral parlors. Interment will take place at St. Mary's cemetery.

## AT THE MOVIES

**THE ELTINGE**  
Choosing between two men is the difficult task for a woman (who is already married), that is assigned to Contance Talmadge in "The Primitive Lover," the first National attraction which is the feature at the Eltinge, Monday and Tuesday. One of the men happens to be her screen husband, who discovers a method, not original but forgotten through disuse, of retaining his wife's affection. "The Primitive Lover" is scheduled as a scintillating comedy drama. Harrison Ford and Kenneth Harlan play the parts of the two men around whom the star's affection wavers.

**CAPITOL**  
"The Five Dollar Baby" the story by Irvin S. Cobb, which appeared originally in the Saturday Evening Post, has been converted into a photoplay by Metro, with Viola Dana in the title role. It comes to the Capitol Theatre Monday with an exceptionally fine record of popularity, and critics who have witnessed it during its run at the Criterion

Neuman Hummel of Gackle, Emma Maisoff of Ashley, Miss Laura Lang of the city, and Robert Lee of Sterling have entered the St. Alexius hospital for treatment. Mrs. Peter Kapp of Raleigh, Mrs. T. J. Kinney of

## Lasting Beauty in Artistic Portraits

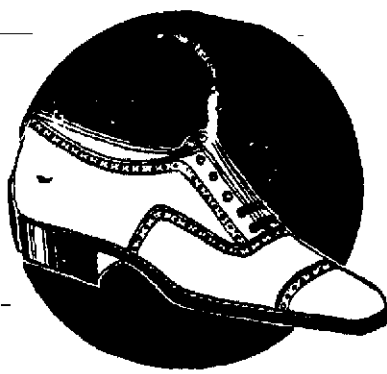

Light and shadow, richness of tone, graceful pose and the personality that speaks from a portrait—

These are the things which go into the making of a picture which strangers stop to study, and your friends treasure, not alone because it's you, but because it's art.

## Slorby Studio

Successors to Holmboe Studio  
"Makers of Quality Portraits"

223 4th St. Phone 264 Bismarck.  
HAVE YOUR PHOTOGRAPHS FOR CHRISTMAS MADE NOW

## The Best Looking Women's Oxfords In Many Seasons

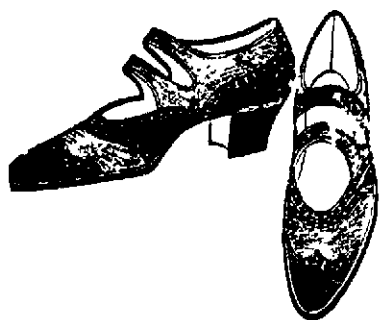

The woman who makes an early morning appearance; at business, at a committee meeting or down shopping, likes the trim, efficient air that the smartly styled Oxfords lend to her appearance. And the many housewives who enjoy a brisk walk each afternoon will also profit by selecting their Oxfords from these news styles.

The Prices range from—

\$5.00 to \$10.00

## Webb Brothers

"Style Shoes of Quality."

Theatre in New York had only the highest praise to give it.

Mr. Cobb's story has its setting in New York's Ghetto. It abounds in the colorful atmosphere of that interesting section, and its characters are such faithful portrayals that one would believe that they were lifted bodily off the streets and into the Metro studios.

Miss Dana appears in a characterization which is really unique. This diminutive star, with her vivacious personality, appears in a role that affords her more than her customary opportunity for joyous comedy.

"The Five Dollar Baby" tells the story of an abandoned infant who is passed for five dollars by a hobo who finds her on a doorstep. Uncle Ben, the pawnbroker, thinks some one is playing a joke on him, until he realizes that, as no one claims the child and the required interest is paid, he is up against the proposition of bringing up the founding. A warm attachment grows between the Jewish pawnbroker and Ruth, as he has named her. When eighteen years are gone, and Ruth grows up into a beautiful miss, the hobo returns to demand the girl.

The Carpenters Dance will be postponed until next Saturday night.

## INSURANCE OF EVERY KIND

There's a Silver Lining to Storm Clouds.

If you have one of the broad liberal policies we sell. Our contracts pay for wrecked property and for loss of income.

## INSURE AND BE SURE

The staunch Hartford Fire Insurance Company is a leader of insurance companies. Get your policy here and know that you are fully protected.

**MURPHY**  
"The Man Who Knows Insurance."  
Bismarck. N. D.

## STATE TO PAY ALL EXPENSE

For the first time since the inception of the law, the state will pay all of the expense of getting out a publicity pamphlet and mailing it to the voters of the state. The pamphlet is to be printed this time to present to the voters the initiated grain grading law. It had been the understanding of the secretary of state that two pages of the pamphlet would be taken up by an article supporting the law.

Friday, the secretary received a telegram from Wm. Lemke saying

that Mr. McGovern (A. J.) and himself considered the present price of wheat ample argument for the law, and that they had decided not to make use of the publicity pamphlet in its support. This will probably reduce the size of the pamphlet to six pages.

Weather permitting the Roof Garden will be open for dancing tonight. Service a la carte. Many people have enjoyed dancing on the Roof as the evenings have been delightful.

## MOELLER NAMED AS CANDIDATE

P. A. Moeller of Enderlin, railroad employe, has been selected by the Nonpartisan league committee as candidate for Secretary of State this fall, according to announcement today. Mr. Moeller was candidate for Congress in the first district in the primaries. Announcement of the league's candidate for Attorney-General may be made tomorrow.

Dance at the Coliseum tonight.

## The Victor Records everybody wants

The standard numbers are the hard-to-get kind. There's naturally always a big demand for them, and our stock has heretofore been somewhat limited. We have enough of them now on hand to be able to give a list of them:

- |  |  |
|--|--|
| 17701 (Hawaiian Waltz Medley Hawaiian Guitars) | 35477 (Songs of the Past—No. 1 Victor Mixed Chorus)  |
| 17702 (Hawaiian Waltz Medley Hawaiian Guitars) | 35478 (Songs of the Past—No. 2 Victor Mixed Chorus)  |
| 17703 (Hawaiian Waltz Medley Hawaiian Guitars) | 35479 (Songs of the Past—No. 3 Victor Mixed Chorus)  |
| 17704 (Hawaiian Waltz Medley Hawaiian Guitars) | 35480 (Songs of the Past—No. 4 Victor Mixed Chorus)  |
| 17705 (Hawaiian Waltz Medley Hawaiian Guitars) | 35481 (Songs of the Past—No. 5 Victor Mixed Chorus)  |
| 17706 (Hawaiian Waltz Medley Hawaiian Guitars) | 35482 (Songs of the Past—No. 6 Victor Mixed Chorus)  |
| 17707 (Hawaiian Waltz Medley Hawaiian Guitars) | 35483 (Songs of the Past—No. 7 Victor Mixed Chorus)  |
| 17708 (Hawaiian Waltz Medley Hawaiian Guitars) | 35484 (Songs of the Past—No. 8 Victor Mixed Chorus)  |
| 17709 (Hawaiian Waltz Medley Hawaiian Guitars) | 35485 (Songs of the Past—No. 9 Victor Mixed Chorus)  |
| 17710 (Hawaiian Waltz Medley Hawaiian Guitars) | 35486 (Songs of the Past—No. 10 Victor Mixed Chorus) |

We're fairly certain to have the particular records you have been wanting. Come in and see.

## SIX PITCHERS USED TO BEAT PITTSBURG

McGraw Employs all the Strategy at His Command To Cinch Race

(By the Associated Press)  
Chicago, Sept. 23.—Take it from New York baseball fandom, the major league pennant races are "all over but the shouting."  
Mathematically speaking the St. Louis Browns, the American and the Pittsburgh Pirates in the National have a chance to overhaul their Gotham rivals but it's a slim chance.  
The Giants, with ten more games to play, were leading by four and a half game today as a result of defeating Pittsburgh, 8 to 7, in a sensational hand to hand grapple upon which the last tangible hopes of the Pirates rested. The Yankees, with six games yet to play, downed Cleveland, 9 to 3, for their fifth straight victory, and kept a lead of three and a half games over the Browns, who defeated Philadelphia, 11 to 5.  
The New York clubs need to win but have their games against the Yankees and the Browns to retain their championship titles, even if the Pirates win all seven of their contests and the Browns are victorious in their five.  
McGraw used six pitchers and an overview of strategy to take the final contest from Pittsburgh, the climax coming in the ninth when the champions squeezed over two runs for victory. The Pirates piled up a five-run lead in the fourth, but Johnny Mori on paved the way for the beginning of the end by blowing up in the tenth inning.  
Joe Bush hung up his 26th victory of the season at the expense of Speaker's Indians.  
The Tigers downed the Red Sox, 5 to 3, while the White Sox bunched hits to beat Washington, 6 to 4.  
In the National league Philadelphia and Boston divided a double-header with Chicago and Cincinnati, respectively. Tompkins and Clements of the Cardinals each collected four bingles, as many times at bat while St. Louis took the last game of the series from Brooklyn, 7 to 4.

# 13 GAMES OF FOOTBALL SCHEDULED

New York, Sept. 23.—Football will take its place in the east's athletic spotlight today when 13 games will bring double that number of college and service, eleven into action for the opening of the fall campaign.  
Yale, Penn State, Washington and Jefferson, and Syracuse are among the larger institutions whose plucky warriors will get their first test.  
Most of the bigger colleges will not line up for their first games until next Saturday.  
Yale faces Bates in its opening encounter. Penn State, declared to be another powerful title contender, despite the loss of several brilliant stars, will try co-educations with St. Bonaventure. Syracuse is to meet Hobart and Washington and Jefferson plays Geneva at Washington, Penn.

# SPORT BRIEFS

Columbus, Ohio.—Margaret Dillon, Ess H. Pointer, Cag Sacy and McGregor the Great, all favorites, were winning horses in the Grand Circuit races.  
Omaha.—Suit for \$20,000 damages as a result of the death of Charles Hawley, known to the boxing ring as Terry Mallory, was begun by the fighter's father, who said death occurred only thirty minutes after a fight with Ray Carter of Sioux City last March.  
Cleveland.—Although failing to lower his mark of 1:57 3/4, Peter Manning, world's fastest trotter, broke the North Randall track record of 1:58 3/4 made by Uhlman in 1909. In his try for a new record Peter Manning made the mile in 1:58 3/4.  
Muncie, Ind.—Eddie Anderson of Moline Illinois, knocked out Stewart McLean of St. Paul, in the eighth round after McLean had established a good lead in the first six rounds.

# ENGINEERS TO PUSH BILL FOR STATE LICENSE

Meeting Held at McKenzie Hotel Last Night Takes up Proposed Legislation

## ROAD PROGRAM TALKED

A long and interesting meeting was held last night by the Bismarck Club of the American Association of Engineers. Twenty-four were present at the 7 o'clock supper served at the McKenzie Hotel.  
The topic discussed was the proposed bill for the registration of surveyors and engineers. So enthusiastic and general was the discussion that the meeting did not break up until after 10 o'clock. Among those present were Judge Christianson, Joseph Kitchen, F. E. Diehl, E. A. Williams and Thomas Sullivan of Mandan.  
J. N. Roherty explained the need and purposes of the proposed engineers license bill emphasizing that the object of the registration law was to protect health, life and property of the public. It was pointed out that nineteen states now have engineering registration and that engineers unqualified and unable to secure licenses in other states may practice engineering in North Dakota and thus impose upon the public of this state. The sister-profession of architecture has a registration act in North Dakota, it was stated.  
It was also pointed out that such a measure would raise the standard of engineering service privately and publicly rendered in the state. The economy in public expenditures through better engineering was described. Mr. Roherty also stated that the measure as proposed is a self-financing proposition, requiring no appropriation and therefore resulting in no additional taxes. He also showed that none of those surveyors or engineers now practicing their professions in the state would be legislated out of business or would be required to take an examination though they would be required to register to continue in practice.  
Commissioner of Labor and Agriculture Kitchen described the course of the engineers license bill introduced in the House at the session of 1921, he then being a member of that legislature. He stated that he favored a bill for the registration of engineers and expressed a belief that there was sufficient merit in the proposal to register surveyors and engineers to make its passage at the next session very likely.  
Reviews History of Registration  
Judge Christianson reviewed the history of the examination and registration for the legal and medical professions and showed how much public welfare was also affected by engineering and engineering works. He also emphasized the merit of an engineers license law and showed how though there might be no great desire from the public for such legislation, public interest nevertheless needed and should be provided with the benefits of skilled engineering as would be more insured with registration than without.  
Ways and means of proceeding with the final draft of the measure and with its enactment into law were also discussed. It was again and again stressed that the object of the bill was to raise the standard of engineering practice in the state and thereby insure to the private individual and the public generally greater economy, the promotion of health and the safe guarding of life and property.  
The license bill committee will immediately proceed with the final draft of the measure to be introduced in the coming session.  
The meeting closed with some remarks by J. E. Kauffus Secretary of the Good Roads Association, advising the engineers of the present state of affairs as concerns the road legislation sponsored by the Association.  
Road Program Explained  
At the meeting of the State Good Roads Association Secretary Kauffus reviewed the history and objects of the Association and explained how and why the legislation sponsored by the Association was necessary.  
The latest requirement of the federal aid road act that after 1926 federal aid could be secured only by matching it with real state funds was described. The present practice of the state highway commission's using county funds to meet federal aid will have to be discontinued, if North Dakota is to continue with federal aid.  
The necessity of a constitutional amendment was pointed out as were the features of the bill which provides state funds by increasing slightly the automobile license fees. No bonding or increase in taxes are contemplated. In fact through the refunds provided to be made to counties for money put up on state and federal projects, the county road and bridge levies should be reduced in the future.

This will be a helpful service for the young people.  
8:00 p. m. Public Worship.  
Music by the chorus choir.  
Sermon-theme, "The Blossoming of the Desert." Gospel hymns will be sung.  
The public are cordially invited.  
Wednesday 8:00 p. m. prayer meeting.

**SOUTH SIDE MISSION AND CHARITY SOCIETY.**  
Regular services every Sunday at 10:30 a. m. in English. Sunday school from 2 to 3 in both languages. The charity society will meet next Tuesday Sept. 26, at 8 o'clock p. m. in my study room. Tomorrow, Sept. 24th there will be given an ice cream social on the north side of the church, 19th and Sweet St South, at 2 o'clock p. m. And at 8 o'clock the service will commence in English by Rev. J. B. Alsburg, assistant pastor. Everybody is cordially invited. So please, be in time at 2 o'clock.  
The golden wedding was celebrated by Rev. and Mrs. J. B. Alsburg on the 11th of this month at their residence on Sweet St. Rev. Alsburg was born at Springfield, Ill., on Sept. 12, 1852. Mrs. Alsburg was born March 25 at Portsmouth, Ohio. Both parents moved to Missouri in 1860, where they were married on Sept. 11, 1872. Hereafter Rev. Alsburg went into the ministry, where he served for 20 years. In 1903 they moved from Missouri to Bismarck, N. D. Here Rev. Alsburg did for some years evangelistic work in traveling over the state, until he settled on a homestead near Menoken. From there they moved back again to Bismarck, where he went in connection with the South Side Mission in the English work, according to Psalm 138, I Behold, how good and how pleasant it is for brethren to dwell together in unity.  
J. B. HAPPEL, Pastor.

**KRAUSE WINS BOUT ON FOUL**  
The scheduled ten-round bout as Steele, between Battling Krause of Bismarck, and Joe Mugg of Medina, was won by Krause at the end of two minutes and forty seconds of fighting in the third round, when Mugg landed a foul blow. The foul was made by Mugg when Krause slipped to the floor in a clinch. Mugg showed great improvement over his former showing, and has every indication of a coming welter. In order to give the fans a run for their money, both boys agreed to box the remaining seven rounds. These two men will no doubt meet again in the near future. O. W. Roberts of Bismarck was the referee.

**Billy Evans Says**  
The world "love" has always been a knock to the tennis game. That word gave the impression to the outsider, who knew nothing of the game, that tennis was a sport for "sissies."  
There have been a number of movements started to eliminate the undesirable word from the game, but none of them got anywhere.  
Apparently the officials of the game have finally decided to cut the word, without any fuss being made about it.  
During the tennis championships at Philadelphia the umpires in the matches were instructed to announce "fifteen Tilden" instead of "love fifteen" or "fifteen love."  
A similar change was noticed in announcements of the results of the games. "Games are two love" has become "games are two to nothing."  
The elimination of the word "love" by the tennis officials will meet with the approval of tennis players the country over. It has been more or less of a joke on some big, husky player to have the word "love" constantly tacked onto his play.  
Incidentally it will remove for all time the tendency on the part of outsiders, who are entirely ignorant of the demands of the game, to ridicule the sport simply because the word "love" has always been so prominently mentioned in connection with the play.  
Tennis is a strenuous sport, a game for red-blooded Americans. It is high time that such an effeminate word was removed from a sport that calls for so much courage and stamina.

**NOTICE TO CREDITORS**  
In the Matter of the Estate of R. E. Homlinson, Deceased:

**NOTICE OF MORTGAGE SALE.**  
BY ADVERTISEMENT  
Notice is hereby given, That certain Mortgage, executed and delivered by Albertson Z. Parks and Alice A. Parks, his wife Mortgages, to the Federal Land Bank of Saint Paul, a corporation Mortgagee, dated the 10th day of October, A. D. 1921, and recorded in Book 151 of Mortgages, at page 390 will be foreclosed by a sale of the premises in such Mortgage and hereinafter described, at the front door of the Court House in the City of Bismarck, in the County of Burleigh, and State of North Dakota, on the 18th day of October, A. D. 1922, at the hour of two o'clock p. m., on the 1st day of October, 1922, to satisfy the amount due upon said Mortgage on the day of sale.  
The premises described in said Mortgage and which will be sold to satisfy the same, are those certain premises situated in the County of Burleigh, and State of North Dakota, and described as follows, to-wit: The East Half of the West Half (E 1/4 W 1/4) of Section Fourteen (14)

hereby notified that the final account of George M. Register, the administrator with the will annexed of the estate of Charles Arthur Rapp, late of the city of Great Falls and State of Montana, deceased, has been rendered to this Court, therein showing that the estate of said deceased is ready for final settlement and distribution, and petitioning that his account be allowed, the residue of said estate be distributed to the persons thereto entitled, his administration closed and he be discharged; that Tuesday, the 31st day of October, A. D. 1922, at ten o'clock in the forenoon of that day at the court house in the City of Bismarck, County of Burleigh, and State of North Dakota, has been duly appointed by this Court for the settlement thereof, at which time and place any person interested in said estate may appear and file his exceptions, in writing, to said account, and petition and contest the same.  
And you, the above named respondents, and each of you, are hereby cited and required then and there to be and appear before this Court, and show cause, if any you have, why said account should not be allowed, the residue of said estate distributed, the administration of said estate closed and said administrator be discharged.  
Dated the 7th day of September A. D. 1922.  
By the Court:  
(SEAL) I. C. DAVIES, Judge of the County Court. 9-9-16-23-30

# NET PROCEEDS OF PAGEANT TO THE RED CROSS

Although Financial Statement  
Is Not Yet Possible Plan  
Is Announced

## CITIZENS ARE THANKED

Any net proceeds from the Historical Pageant given this week will be turned over to the Red Cross, it has been announced by the Joint Pageant Committee. Whether or not there will be any excess will not be known for some days, it was said, as all bills have not been checked up. A final settlement is expected to be made within a few days.

The gross proceeds of the pageant were about \$6,000, the receipts in Bismarck being about \$100 in excess of those in Mandan. The attendance is estimated at about 15,000 for the three nights. Mandan estimated that 3,500 to 4,000 saw the pageant each night in that city, and the attendance in Bismarck the first night was estimated at 6,000 to 7,500.

J. H. Newton of Mandan, chairman of the Joint Committee, today expressed appreciation of the cooperation of the two cities. He said:

The Joint Pageant committee wishes to express its deep appreciation of the splendid co-operation given by the men and women, the young men and young ladies, the boys and girls of both cities in the work of preparation for an presentation of the Memorial Pageant. Those who decorated the cities, the committees in charge of the street museums, and other pageant work, the organizations which worked so energetically to further the sale of tickets, the individuals who entered so heartily and willingly into the spirit of the occasion and made possible the great success of the pageant, all have the thanks of the committee for their splendid work.

## Important Highway Willam G. Edens, of Chicago, president of the National Parks Highway Association, and one of the first leaders in the good road movement has written the committee as follows:

"I caught a glimpse of this beautiful structure one day in August while aboard the North Coast Limited on the Northern Pacific Railway coming home from an extended business trip to the coast. I was sorry that lack of time prevented my stopping over to inspect the bridge. It is a matter for earnest congratulations to your people that this very necessary public work has been completed, and it will bring joy and comfort to thousands of motorists from both east and west who are using the National Parks Highway to know that there will be no more ferrying at this point.

"I regret exceedingly that my business engagements are such that it will not be possible for me to attend the exercises marking the opening and dedication as I expect to leave for New York shortly to attend the annual convention of the American Bankers' Association, being a member of the Agricultural Commission of that body. Nevertheless I appreciate the remembrance and as President of the National Parks Highway Association wish to extend my hearty congratulations to all connected with this importance enterprise.

## Former W. C. T. U. Officers Elected

(By the Associated Press)  
Fargo, N. D., Sept. 23.—Former officers of the North Dakota W. C. T. U. were all re-elected at the annual election held at the convention at the First Methodist church today. The appearance at the convention of

## Coming to BISMARCK Dr. Mellenthin SPECIALIST

For His Ninth Year in North Dakota  
DOES NOT USE SURGERY

Will be at  
**McKENZIE HOTEL**  
Friday and Saturday  
October 13th and 14th  
Office Hours: 10 a. m. to 4 p. m.  
**ONE DAY ONLY**

No Charge for Examination

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the state of North Dakota. He visits professionally the more important towns and cities and offers to all who call on this trip consultation and examination free, except the expense of treatment when desired.

According to his method of treatment he does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit many wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures rather than disease are very often the cause of your long standing trouble.

Remember above date, that examinations on this trip will be free and that his treatment is different.

Address: 336 Boston Block, Minneapolis, Minn.

## "Miss America" Becoming Famous

Ever since Miss Mary Katherine Campbell of Columbus, O., won the title in a recent national contest of "America's most beautiful girl," she has been sought after by artists, movie men and theatrical producers, all anxious to display the beauty to the public. Here Miss Campbell is shown sitting for a portrait by Joseph Cummings Chase, noted New York portrait painter.

Miss Anna A. Gordon, president of the National W. C. T. U. and acting president of the W. C. T. U. of the world was the signal for a demonstration by the delegates. They rose to their feet cheering, and continued cheering until Miss Gordon was seated on the platform.

The following are the officers re-elected: President, Mrs. Elizabeth Preston Anderson, Fargo; Vice-president, Mrs. Fred M. Wanner, Jamestown; Corresponding Secretary, Mrs. Barbara H. Wylie, Fargo; Recording Secretary, Mrs. Frank Beasley, Fairdale; Treasurer, Mrs. W. E. Black, Fargo.

## CAR SITUATION MORE SERIOUS

### Rush of Cars to North Dakota May Not Answer Needs

Although the Interstate Commerce Commission is making effort to have moved additional cars to North Dakota for handling the grain and potato crop the car situation is daily becoming more serious, according to Chairman Mitholland of the state railroad commission, who has returned from Washington. This is especially true as to potatoes, the commission has been advised, and suggests that stock cars may be utilized for potato shipments during the next few days when there is no danger of potatoes being damaged by frost.

Investigation has disclosed that lignite mines in the state are steadily increasing their production, according to reports to the commission, and if the public continues laying in at least part of its winter supply so that the mine production may not be lessened the effect will be to considerably investigate the effect of the coal shortage, it was stated.

Coal now is reaching the Duluth and Superior docks in large quantities but the demands are so great that even though North Dakota receives her proportionate allotment—about 18 percent—the aggregate tonnage to reach North Dakota before navigation closes will be but about 20 percent of the annual total. Coal dealers in North Dakota are urged to place their orders for dock coal with their usual jobbers at once so that as the North Dakota allotments are made at the docks there will be sufficient orders to permit immediate shipment of coal in the state.

Representatives of the North Dakota commission, in conference with railroad heads, obtained a reduction in freight rates on Canadian coal of sufficient quality to be substituted for dock coal to permit emergency shipment of 500 to 2,000 tons of this coal a week into North Dakota from western Canada to be used by consumers unable to burn lignite.

The Carpenters Dance will be postponed until next Saturday night.

## TIERNANS TO KEEP CHILD IN DISPUTE

### Quarrel Over Paternity Leads To Complete Reconciliation As Case Ends

(By the Associated Press)  
South Bend, Ind., Sept. 23.—Reconciliation has come to the Tiernan family.

From the ashes of a confessed illicit love Mrs. Tiernan today is smiling, as she sees in them the embryo of another love, the reunion of herself and Prof. John P. Tiernan.

Not only will the Tiernans continue in wedlock but they will remain in South Bend. The ten months old son, the infant in dispute, which the Tiernans claim is the child of Harry Poulin, will remain with the reunited family and receive the same attention that Professor Tiernan gives the two daughters.

The inquiries which led to the questioning of the Tiernans in regard to their domestic relations resulted from the receipt by Mrs. Tiernan of an enormous bouquet of roses when she left the stand earlier in the week. The flowers were without a card and after a close investigation of the local floral shops a newspaper discovered that they had been ordered by Professor Tiernan.

The reunion of the Tiernans, it is said, has been expected by friends of the couple.

When court opened this morning, there was the usual crowd of scandal seekers in front of the city hall, all anxious to work their way into the court room, hoping that the announcement made by Judge C. L. Ducomb yesterday would be revoked and the gallery again opened to the public. Their hopes, however, were shattered and when the session was resumed only the court officials, witnesses and newspaper men were able to pass the police.

## MANDAN VOTES PARK BONDS

A few hours after the voters of Mandan, had approved, in a special election, of an issue of \$9,000 worth of park bonds, Mandan's Park Commission had let the contract here today for a \$23,000 dam across the Heart river as a part of the park plans of the city.

The bond issue carried by a majority of 108 out of 440 votes.

## RATTLER'S BITE FATAL TO BOY

Sentinel Butte, N. D., Sept. 22.—Jesse Herr, nine year old son of R. J. Herr of Alpha, N. D., is dead as

the result of the bite of a rattlesnake. The boy was bitten about two weeks ago and the spread of the snake poison thru his system it was believed had been checked. However, a blood clot formed in his forearm below the place where the arm had been so tightly bound after he was bitten, and these working their way into the lungs caused a fatal pulmonary pneumonia. He was buried in the Alpha cemetery.

## URGE CHANGE IN BUREAU OF HEALTH

### Dr. French Says That This Work Is Most Sadly Neglected in North Dakota

Fargo, N. D., Sept. 23.—A plan for the reorganization of the state board of health which would place its work on a more modern and efficient basis and which would need an appropriation of \$20,000 from the next legislature and discussion of the local health situation featured the meeting of the C. A. county medical society.

In a discussion of "putting North Dakota on the public health map," Dr. H. E. French, secretary of the state board of health, said that this work has been "sadly neglected" in this state and outlined his plan to reorganize the department and push the work. He said that while North Dakota appropriates an enormous amount for the mental education of its children not one cent is appropriated for maintaining physical conditions.

He pointed out that in a recent survey conducted by the Rockefeller Institute, North Dakota was placed last on the list of states in the amount of money spent for public health. In this survey, he said, North Dakota scored only 130 of a possible 1,000. He recommended a state sanitary engineer to take care of problems relating to water supply and sewage and garbage disposal. Several departments of public health work, such as tuberculosis prevention, prenatal and child welfare, which should be taken care of by a well organized public health service, are being carried on only by individuals who cannot stand by and see the work neglected.

## FATHER SENT GIRL AWAY

Mrs. Thomas Mann in a letter to The Tribune from Dickinson says that with respect to the young Bismarck white girl who went with her and her husband that the father asked her to take the girl. She renewed her invitation for authorities to arrest her husband, whom she said was threatening near Dickinson.

## NORTHERN PACIFIC TESTS GASOLINE COACH TO AUGMENT PRESENT STEAM TRAIN SERVICE

Railway passenger car tried out in Montana and Nor. Dakota.

Gasoline passenger coaches are being tested by the Northern Pacific on the Fargo-Lisbon line in North Dakota and on the Gilmore and Pittsburgh in Montana.

Equipped with water coolers, heaters, electric lights, toilet facilities and other conveniences, the new gasoline cars provide all the comforts of the modern train coach.

"Experiments with these small passenger units are being made with a view to giving the public better service," said Mr. A. B. Smith, Passenger Traffic Manager. "It may be that the results will encourage the Northern Pacific to extend their use to other parts of our system."
